Quartz and Radio Controlled Clocks
analog · digital · single face

Sensible, matter-of-fact clocks in an attractive, up-to-date design. In the office or the shop, the surgery or the lab, the reception area or the cafeteria, the conference room or the lounge – in all those places these clocks earn the term »outstandingly suitable«.

DCF77 Radio Controlled Wall Clock

Indoor
digital
single face

Type series
106

DCF77 radio controlled clocks
DCF77 radio controlled clocks will only function correctly within a radius of approx. 1,500 km around Mainflingen (50 km east of Frankfurt/M.) and under conditions of free radio propagation and may be impaired in heavily reinforced concrete structures.

Time, date, temperature – everything at a single glance. And the price is right, too.

Case
■ Attractive, metallic silver coloured plastic case.
Protection grade IP 40 (EN 60 529).

LCD digital display
Extra large numerals provide for optimum readability of hours, minutes, and seconds, as well as date, abbreviated day of week (8 languages), indoor temperature, and humidity. Manual time zone selection.
1.5 V battery operation.

DCF77
DCF77 radio controlled clock with fully automatic adjustment of time and date at initial operation as well as fully automatic change-over of summer/winter time.

Indoor Clocks
analog · single and double faces

Demanding environments require high quality clocks, instantly readable from any direction and clear enough to avoid error or doubt even at long distances.
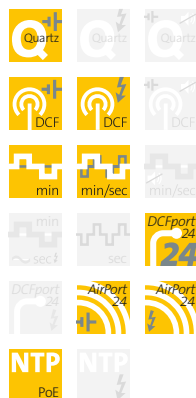

That's all the time you need ...

Wall Clocks
with printed bar markings

Distinctive clocks with high-contrast faces – black bar markings on silver anodised aluminium faces.

Case
■ cir. 300 mm diameter metal case, enamelled black (RAL 9005), optionally stainless steel case (1.4301 X5CrNi 18-10, German trade name V2A) in a matted finish or metal case enamelled in colours (see list below).
Protection grade IP 40 (EN 60 529).

Front glass
Domed mineral glass as standard, shock-resistant Plexiglas® XT as an option.

Packaging (Option)
As an option, clockwork packaged to protect it against blown dust and/or sprayed water (IP 54 according to EN 60 529) is available.

Face
Metal face, enamelled silver anodised aluminium with a radial brush finish, high contrast black bar type markings.

Hands
Black bar-type hour and minute hands, black second hand.
No second hand on minute pulse 12…60 V controlled slave clocks.

DCF77 radio controlled clocks

DCF77 radio controlled clocks will only function correctly within a radius of approx. 1,500 km around Mainflingen (50 km east of Frankfurt/M.) and under conditions of free radio propagation and may be impaired in heavily reinforced concrete structures. For this case we recommend a remotable DCF77 aerial (option).

PEWETA DCFport24

PEWETA DCFport24 slave clocks require a PEWETA master clock (see from page 178 on).

PEWETA AirPort24

PEWETA AirPort24 slave clocks require an AirPort24 transmitter or repeater respectively (see page 183).

NTP

NTP system clocks require a PEWETA master clock (see from page 178 on) or an NTP time server (see page 185).

Elegant clocks, combining faces with Roman numerals and tapered hands with state-of-the-art clockwork technology.

Case

■ cir. 300 mm diameter
very sturdy metal case, as standard enamelled white (RAL 9016) or, as an option, enamelled in colours (see list below).
As an option, a stainless steel case (1.4301 X5CrNi 18-10, German trade name V2A) is available in a matted finish.
Protection grade IP 40 (EN 60 529).

Snap-tight fixture (option)

As an option, these clocks are available with an additional mounting fixture to prohibit dropping or wrenching off.

Front glass

Domed mineral glass as standard, shock-resistant Plexiglas® XT as an option.

Face

Metal, enamelled white with black Roman numerals.

Hands

Tapered black hour and minute hands, no second hand.

Power outage reserve

DCF77 radio controlled clocks and *AirPort24* slave clocks with a 230 V AC power supply of this type series provide continued operation for approx. 14 days in case of a mains power outage.
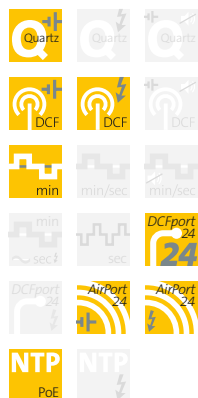

Stainless steel V2A (option)

Due to its components stainless steel V2A is an alloy almost completely impervious to detergents and disinfectants and is therefore excellently suited for the use in the food and pharmaceutical industries, in kitchens, laboratories and other clean rooms. And it looks good into the bargain, as well!

DCF77 radio controlled clocks
DCF77 radio controlled clocks will only function correctly within a radius of approx. 1,500 km around Mainflingen (50 km east of Frankfurt/M.) and under conditions of free radio propagation and may be impaired in heavily reinforced concrete structures. For this case we recommend a remotable DCF77 aerial (option).

PEWETA *DCFport24*
PEWETA DCFport24 slave clocks require a PEWETA master clock (see from page 178 on).

PEWETA *AirPort24*
PEWETA AirPort24 slave clocks require an AirPort24 transmitter or repeater respectively (see page 183).

NTP
NTP system clocks require a PEWETA master clock (see from page 178 on) or an NTP time server (see page 185).

[1] NTP system clocks of "PoE" type require a PoE (Power over Ethernet) power supply. Appropriate hardware has to be supplied by customer.

All prices are subject to change without notice, packing and shipping cost (see page 187) as well as VAT for deliveries within Germany added. Prices shown as of January 1st, 2025. If you have any questions or require additional information, please contact us, we will gladly give advice.

Indoor Clocks

71.**271**.321 shown

Wall clocks with sturdy **metal cases.** State-of-the-art, up-to-date, functional – totally reliable!

71.**271**.321 **–05**

Optionally available with case enamelled in metallic silver grey RAL 9006

Case
- cir. 265 mm diameter
- cir. 300 mm diameter
- cir. 400 mm diameter

very sturdy metal case, enamelled white (RAL 9016). Optionally, at a surcharge, enamelled in metallic silver grey (RAL 9006), in dark gun metal (DB 703) or custom enamelled, as listed below.
Protection grade IP 40 (EN 60 529).

Front glass
Flat shock-resistant Plexiglas® XT on 265 mm diameter cases, domed mineral glass on 300 mm diameter cases and shock-resistant Plexiglas® XT on 400 mm cases.

Face
High distinction white metal with black DIN bar markings for easy, doubt-free reading even over longer distances. Face printed according to DIN 41 091.

Hands
Pointed black bar-type hour and minute hands, red second hand.
No second hand on minute pulse 12...60 V controlled slave clocks.

Indoor Clocks
double face

81.**272**.312 shown

Double face clocks for all places where time must be readable from either side. Robust metal, fit everywhere!

Suffix **–37**

Metal cover for wall or ceiling mounting brackets available as an option

Detachable ceiling mounting in any length desired (e. g. for suspension beneath a false ceiling), available as an option (Suffix -29)

Case
- cir. 270 mm diameter
- cir. 320 mm diameter
- cir. 420 mm diameter

very sturdy metal case, enamelled white (RAL 9016). Optionally, at a surcharge, the case may be enamelled in metallic silver grey (RAL 9006), in dark gun metal (DB 703) or custom enamelled, as listed below.
As an option, a stainless steel case (1.4301 X5CrNi 18-10, German trade name V2A) is available in a matted finish.
Protection grade IP 40 (EN 60 529).

Mounting
Choice of very sturdy wall or ceiling mounting brackets, standard length cir. 150 mm. For custom lengths or custom mounting options see table below.

Front glasses
Flat, shock-resistant Plexiglas® XT for outstandingly clear visibility.

Faces
High distinction white metal with black Arabic numerals for easy, doubt-free reading even over longer distances. Faces printed according to DIN 41 091.

Hands
Black bar-type hour and minute hands, red second hands.
No second hands on DCF77 and AirPort24 radio controlled clocks and on minute pulse 12...60 V controlled slave clocks.

Double face clocks
Double face clocks come completely wired and pre-assembled.
Just mount them and plug in – **that's it!**

Stainless steel V2A (option)
Due to its components stainless steel V2A is an alloy almost completely impervious to detergents and disinfectants and is therefore excellently suited for the use in the food and pharmaceutical industries, in kitchens, laboratories and other clean rooms. And it looks good into the bargain, as well!

DCF77 radio controlled clocks
DCF77 radio controlled clocks of this type series will be supplied including a remotable DCF77 aerial (IP 68). Thus, optimum reception quality can be achieved regardless of the final placement of the clock itself. However, DCF77 radio controlled clocks will only function correctly within a radius of approx. 1,500 km around Mainflingen (50 km east of Frankfurt/M.).

PEWETA *DCFport24*
PEWETA DCFport24 slave clocks require a PEWETA master clock (see from page 178 on).

PEWETA *AirPort24*
PEWETA AirPort24 slave clocks require an AirPort24 transmitter or repeater respectively (see page 183).

NTP
NTP system clocks require a PEWETA master clock (see from page 178 on) or an NTP time server (see page 185).

[1] Alkaline batteries are included in delivery shipment (medium lifespan: cir. 4 years).
[2] A remotable DCF77 receiving aerial is included in delivery shipment.
[3] NTP system clocks of "PoE" type require a PoE (Power over Ethernet) power supply. Appropriate hardware has to be supplied by customer.
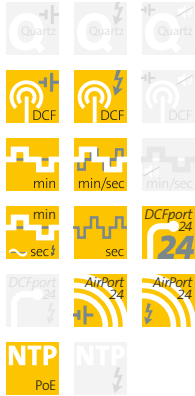

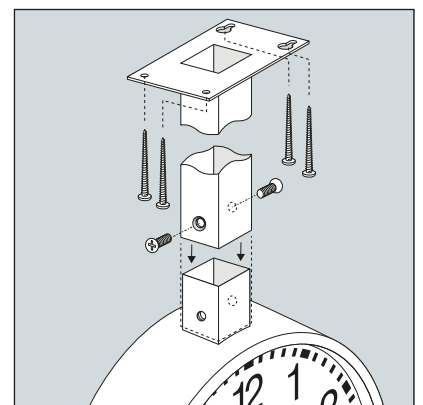

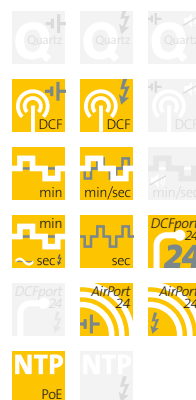

All prices are subject to change without notice, packing and shipping cost (see page 187) as well as VAT for deliveries within Germany added. Prices shown as of January 1st, 2025. If you have any questions or require additional information, please contact us, we will gladly give advice.

DCF77 radio controlled clocks
DCF77 radio controlled clocks of this type series will be supplied including a remotable DCF77 aerial (IP 68). Thus, optimum reception quality can be achieved regardless of the final placement of the clock itself. However, DCF77 radio controlled clocks will only function correctly within a radius of approx. 1,500 km around Mainflingen (50 km east of Frankfurt/M.).

PEWETA DCFport24
PEWETA DCFport24 slave clocks require a PEWETA master clock (see from page 178 on).

PEWETA AirPort24
PEWETA AirPort24 slave clocks require an AirPort24 transmitter or repeater respectively (see page 183).

NTP
NTP system clocks require a PEWETA master clock (see from page 178 on) or an NTP time server (see page 185).

[1] Alkaline batteries are included in delivery shipment (medium lifespan: cir. 4 years).

[2] A remotable DCF77 receiving aerial is included in delivery shipment.

[3] NTP system clocks of "PoE" type require a PoE (Power over Ethernet) power supply. Appropriate hardware has to be supplied by customer.

81.**272**.332 shown

Double face clocks for all places where time must be readable from either side. Robust metal, fit everywhere!

Suffix **–37**

Metal cover for wall or ceiling mounting brackets available as an option

71.**272**.433 **–30**

Clock case with lugs (option) for suspension by metal ropes or chains

Case

- cir. 270 mm diameter
- cir. 320 mm diameter
- cir. 420 mm diameter

very sturdy metal case, enamelled white (RAL 9016). Optionally, at a surcharge, the case may be enamelled in metallic silver grey (RAL 9006), in dark gun metal (DB 703) or custom enamelled, as listed below.
As an option, a stainless steel case (1.4301 X5CrNi 18-10, German trade name V2A) is available in a matted finish.
Protection grade IP 40 (EN 60 529).

Mounting

Choice of very sturdy wall or ceiling mounting brackets, standard length cir. 150 mm. For custom lengths or custom mounting options see table below.

Front glasses

Flat, shock-resistant Plexiglas® XT for outstandingly clear visibility.

Faces

High distinction white metal with black fine-line markings for easy, doubt-free reading even over longer distances.
Face printed according to DIN 41 091.

Hands

Black bar-type hour and minute hands, red second hands.
No second hands on DCF77 and AirPort24 radio controlled clocks and on minute pulse 12…60 V controlled slave clocks.

Double face clocks

Double face clocks come completely wired and pre-assembled.
Just mount them and plug in – **that's it!**
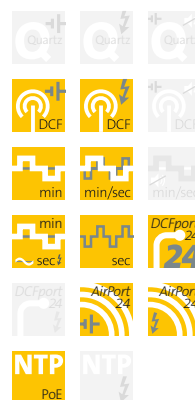

Stainless steel V2A (option)

Due to its components stainless steel V2A is an alloy almost completely impervious to detergents and disinfectants and is therefore excellently suited for the use in the food and pharmaceutical industries, in kitchens, laboratories and other clean rooms. And it looks good into the bargain, as well!

DCF77 radio controlled clocks
DCF77 radio controlled clocks will only function correctly within a radius of approx. 1,500 km around Mainflingen (50 km east of Frankfurt/M.) and under conditions of free radio propagation and may be impaired in heavily rein-forced concrete structures. For this case we recommend a remotable DCF77 aerial (option).

PEWETA *DCFport24*
PEWETA DCFport24 slave clocks require a PEWETA master clock (see from page 178 on).

PEWETA *AirPort24*
PEWETA AirPort24 slave clocks require an AirPort24 trans-mitter or repeater respectively (see page 183).

NTP
NTP system clocks require a PEWETA master clock (see from page 178 on) or an NTP time server (see page 185).

[1] NTP system clocks of "PoE" type require a PoE (Power over Ethernet) power supply. Appropriate hardware has to be supplied by customer.

All prices are subject to change without notice, packing and shipping cost (see page 187) as well as VAT for deliveries within Germany added. Prices shown as of January 1st, 2025. If you have any questions or require additional information, please contact us, we will gladly give advice.

81.**282**.312 shown

Double face clocks for all places where time must be readable from either side. Robust metal, fit everywhere!

Suffix **–37**

Metal cover for wall or ceiling mounting brackets available as an option

Detachable ceiling mounting in any length desired (e. g. for suspension beneath a false ceiling), available as an option (Suffix -29)

Case

■ cir. 285 x 285 mm
■ cir. 335 x 335 mm
■ cir. 435 x 435 mm

very sturdy metal case, enamelled white (RAL 9016). Optionally, at a surcharge, the case may be enamelled in metallic silver grey (RAL 9006), in dark gun metal (DB 703) or custom enamelled, as listed below.
As an option, a stainless steel case (1.4301 X5CrNi 18-10, German trade name V2A) is available in a matted finish.
Protection grade IP 40 (EN 60 529).

Mounting

Choice of very sturdy wall or ceiling mounting brackets, standard length cir. 150 mm. For custom lengths or custom mounting options see table below.

Front glasses

Flat, shock-resistant Plexiglas® XT for outstandingly clear visibility.

Faces

High distinction white metal with black Arabic numerals for easy, doubt-free reading even over longer distances. Faces printed according to DIN 41 091.

Hands

Black bar-type hour and minute hands, red second hands.
No second hands on DCF77 and AirPort24 radio controlled clocks and on minute pulse 12…60 V controlled slave clocks.

Double face clocks

Double face clocks come completely wired and pre-assembled.
Just mount them and plug in – **that's it!**

Stainless steel V2A (option)

Due to its components stainless steel V2A is an alloy almost completely impervious to detergents and disinfectants and is therefore excellently suited for the use in the food and pharmaceutical industries, in kitchens, laboratories and other clean rooms. And it looks good into the bargain, as well!

DCF77 radio controlled clocks
DCF77 radio controlled clocks of this type series will be supplied including a remotable DCF77 aerial (IP 68). Thus, optimum reception quality can be achieved regardless of the final placement of the clock itself. However, DCF77 radio controlled clocks will only function correctly within a radius of approx. 1,500 km around Mainflingen (50 km east of Frankfurt/M.).

PEWETA *DCFport24*
PEWETA DCFport24 slave clocks require a PEWETA master clock (see from page 178 on).

PEWETA *AirPort24*
PEWETA AirPort24 slave clocks require an AirPort24 transmitter or repeater respectively (see page 183).

NTP
NTP system clocks require a PEWETA master clock (see from page 178 on) or an NTP time server (see page 185).

71.**282**.322 shown

Double face clocks for all places where time must be readable from either side. Robust metal, fit everywhere!

71.**282**.423 **–30**

Clock case with lugs (option) for suspension by metal ropes or chains

Detachable ceiling mounting in any length desired (e.g. for suspension beneath a false ceiling), available as an option (Suffix -29)

Case
- cir. 285 x 285 mm
- cir. 335 x 335 mm
- cir. 435 x 435 mm

very sturdy metal case, enamelled white (RAL 9016). Optionally, at a surcharge, the case may be enamelled in metallic silver grey (RAL 9006), in dark gun metal (DB 703) or custom enamelled, as listed below.
As an option, a stainless steel case (1.4301 X5CrNi 18-10, German trade name V2A) is available in a matted finish.
Protection grade IP 40 (EN 60 529).

Mounting
Choice of very sturdy wall or ceiling mounting brackets, standard length cir. 150 mm. For custom lengths or custom mounting options see table below.

Front glasses
Flat, shock-resistant Plexiglas® XT for outstandingly clear visibility.

Faces
High distinction white metal with black DIN bar markings for easy, doubt-free reading even over longer distances. Face printed according to DIN 41 091.

Hands
Pointed black bar-type hour and minute hands, red second hands.
No second hands on DCF77 and AirPort24 radio controlled clocks and on minute pulse 12...60 V controlled slave clocks.

Double face clocks
Double face clocks come completely wired and pre-assembled.
Just mount them and plug in – **that's it!**
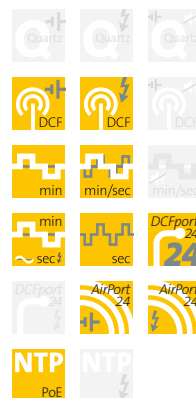

Stainless steel V2A (option)
Due to its components stainless steel V2A is an alloy almost completely impervious to detergents and disinfectants and is therefore excellently suited for the use in the food and pharmaceutical industries, in kitchens, laboratories and other clean rooms. And it looks good into the bargain, as well!

DCF77 radio controlled clocks
DCF77 radio controlled clocks of this type series will be supplied including a remotable DCF77 aerial (IP 68). Thus, optimum reception quality can be achieved regardless of the final placement of the clock itself. However, DCF77 radio controlled clocks will only function correctly within a radius of approx. 1,500 km around Mainflingen (50 km east of Frankfurt/M.).

PEWETA *DCFport24*
PEWETA DCFport24 slave clocks require a PEWETA master clock (see from page 178 on).

PEWETA *AirPort24*
PEWETA AirPort24 slave clocks require an AirPort24 transmitter or repeater respectively (see page 183).

NTP
NTP system clocks require a PEWETA master clock (see from page 178 on) or an NTP time server (see page 185).

[1] Alkaline batteries are included in delivery shipment (medium lifespan: cir. 4 years).
[2] A remotable DCF77 receiving aerial is included in delivery shipment.
[3] NTP system clocks of "PoE" type require a PoE (Power over Ethernet) power supply. Appropriate hardware has to be supplied by customer.

All prices are subject to change without notice, packing and shipping cost (see page 187) as well as VAT for deliveries within Germany added. Prices shown as of January 1st, 2025. If you have any questions or require additional information, please contact us, we will gladly give advice.

DCF77 radio controlled clocks
DCF77 radio controlled clocks of this type series will be supplied including a remotable DCF77 aerial (IP 68). Thus, optimum reception quality can be achieved regardless of the final placement of the clock itself. However, DCF77 radio controlled clocks will only function correctly within a radius of approx. 1,500 km around Mainflingen (50 km east of Frankfurt/M.).

PEWETA *DCFport24*
PEWETA DCFport24 slave clocks require a PEWETA master clock (see from page 178 on).

PEWETA *AirPort24*
PEWETA AirPort24 slave clocks require an AirPort24 transmitter or repeater respectively (see page 183).

NTP
*NTP system clocks require a PEWETA master clock (see from page 178 on) or an NTP time server (see page 185).*

[1] Alkaline batteries are included in delivery shipment (medium lifespan: cir. 4 years).
[2] A remotable DCF77 receiving aerial is included in delivery shipment.
[3] NTP system clocks of "PoE" type require a PoE (Power over Ethernet) power supply. Appropriate hardware has to be supplied by customer.

*All prices are subject to change without notice, packing and shipping cost (see page 187) as well as VAT for deliveries within Germany added. Prices shown as of January 1st, 2025. If you have any questions or require additional information, please contact us, we will gladly give advice.*

Also available
"**resistant** to **thrown balls**"

71.**350**.511 shown

Large spaces call for large clocks! Extremely sturdy clocks with **solid, industrial grade metal cases**. Doubt-free reading of the exact time from afar – at any time.

Also available in a version resistant to thrown balls, according to DIN 18 032, part 3.

52.**350**.511 **–06**

▲ Case enamelled dark gun metal (DB703) as an option

Case
- cir. 446 mm diameter
- cir. 546 mm diameter
- cir. 646 mm diameter

very sturdy metal case, enamelled metallic silver grey (RAL 9006) or, as an option, enamelled in dark gun metal (DB 703) or custom enamelled, as listed below.
Protection grade IP 40 (EN 60 529).

Resistance to thrown balls acc. to DIN 18032, part 3 (option)
Clocks of this type series are also available resistant to thrown balls and thus suitable for gymnasiums and other sporting facilities. Very sturdy case with three-point mounting as a safeguard, proof against wrenching off the hook. Front glass is a 2-layer laminated safety glass, 6 mm thick. The clocks are certified and labelled "resistant to thrown balls according to DIN 18032, part 3".

Front glass
Flat shock-resistant Plexiglas® XT (PMMA) as standard.

Packaging (option)
As an option, clockwork packaged to protect it against blown dust and/or sprayed water (IP 54 according to EN 60 529) is available.

Face
High distinction white metal with large black Arabic numerals for easy, doubt-free reading even over longer distances. Visible face diameter 420 mm, 520 mm and 620 mm respectively. Face printed according to DIN 41 091.

Hands
Pointed black bar-type hour and minute hands according to DIN 41 092.

Red second hand on slave clocks with minute/second pulse (**72**.xxx) and on slave clocks with synchronous second hands (**74**.xxx) only.

Tube version for suspension
from the ceiling ▶

91.**352**.624

70

Case

- cir. 446 mm diameter
- cir. 546 mm diameter
- cir. 646 mm diameter

very sturdy metal case, enamelled metallic silver grey (RAL 9006) or, as an option, enamelled in dark gun metal (DB 703) or custom enamelled, as listed below.
Protection grade IP 40 (EN 60 529).

Mounting

Choice of double bracket wall or ceiling mounting, standard bracket length cir. 210 mm, or sturdy metal tube suspension from the ceiling, tube length cir. 1000 mm. On request, custom length available optionally.
As an option, available with lugs for suspension by ropes or chains.

Front glasses

Flat shock-resistant Plexiglas® XT (PMMA).

Packaging (option)

As an option, clockwork packaged to protect it against blown dust and/or sprayed water (IP 54 according to EN 60 529) is available.
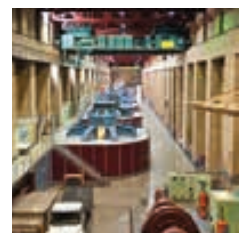

Faces

High distinction white metal with large black DIN bar markings for easy, doubt-free reading even over longer distances. Visible face diameter 420 mm, 520 mm and 620 mm respectively. Faces printed according to DIN 41 091.

Hands

Pointed black bar-type hour and minute hands according to DIN 41 092
Red second hands on slave clocks with minute/second pulse (**72**.xxx) and on slave clocks with synchronous second hands (**74**.xxx) only.

DCF77 radio controlled clocks

DCF77 radio controlled clocks of this type series will be supplied including a remotable DCF77 aerial (IP 68). Thus, optimum reception quality can be achieved regardless of the final placement of the clock itself. However, DCF77 radio controlled clocks will only function correctly within a radius of approx. 1,500 km around Mainflingen (50 km east of Frankfurt/M.).

PEWETA DCFport24
PEWETA DCFport24 slave clocks require a PEWETA master clock (see from page 178 on).

PEWETA AirPort24
PEWETA AirPort24 slave clocks require an AirPort24 transmitter or repeater respectively (see page 183).

NTP
NTP system clocks require a PEWETA master clock (see from page 178 on) or an NTP time server (see page 185).

Double face clocks
Double face clocks come completely wired and pre-assembled.
Just mount them and plug in – **that's it!**

Also available
"**resistant** to **thrown balls**"

72.**369**.510 shown

Clocks of this type series are excellently suited for all applications requiring large clocks with **solid, industrial grade metal cases** mounted flush with a wall surface.

Also available in a version resistant to thrown balls, according to DIN 18032, part 3.

72.**369**.510 –**22**

▲ Clock cases made of stainless steel V4A, blasted and varnished (optional) are resistant to saline or chlorous media. Excellently suited for permanent use in public swimming pools.

Case

- Faceplate cir. 460 x 460 mm
- Faceplate cir. 560 x 560 mm
- Faceplate cir. 660 x 660 mm

very sturdy metal case for flush mounting in walls, enamelled white (RAL 9016). Optionally, at a surcharge, enamelled in metallic silver grey (RAL 9006), in dark gun metal (DB 703) or custom enamelled, as listed below. A stainless steel case (1.4571 X6CrNiMoTi 17-12-2, German trade name V4A), blasted and additionally coated with a protective varnish, is available as an option. Protection grade IP 40 (EN 60 529).

Mounting

These clocks are to be mounted flush with the wall surface and require a recess of (W x H x D)

- cir. 406 x 406 x 80 mm
- cir. 506 x 506 x 80 mm
- cir. 606 x 606 x 80 mm.

Resistance to thrown balls acc. to DIN 18 032, part 3 (option)

Clocks of this type series are also available resistant to thrown balls and thus suitable for schools, gymnasiums and other sporting facilities. Very sturdy metal case with 6 mm two-ply laminated mineral safety glass. These clocks conform to German Industry Standard and are certified and labelled "resistant to thrown balls according to DIN 18 032, part 3".

Front glass

Flat shock-resistant Plexiglas® XT (PMMA) as standard.

Packaging (option)

As an option, clockwork packaged to protect it against blown dust and/or sprayed water (IP 54 according to EN 60 529) is available.

Face

High distinction white metal with large black Arabic numerals for easy, doubt-free reading even over longer distances. Visible print diameters are cir. 335 mm, 420 mm, and 503 mm respectively. Face printed according to DIN 41 091.

Hands:

Black bar-type hour and minute hands. Red second hand on slave clocks with minute/second pulse (72.xxx) only.

Stainless steel V4A (option)

Due to its components stainless steel V4A is an alloy almost completely impervious to detergents and disinfectants and is therefore excellently suited for the use in the food and pharmaceutical industries, in kitchens, laboratories and other clean rooms. And it looks good into the bargain, as well!

### Stainless steel V4A + varnish (option)

V4A quality stainless steel with an additional coat of protective varnish is outstandingly resistant to acids and other chlorous media and is therefore particularly suited for public swimming pools as well as for the chemical industry.

- cir. 600 x 600 mm

very sturdy metal case, enamelled white (RAL 9016). Optionally, at a surcharge, custom enamelled, as listed below. A stainless steel case (1.4301 X5CrNi 18-10, German trade name V2A) with a matted finish or a stainless steel case (1.4571 X6CrNiMoTi 17-12-2, German trade name V4A), blasted and additionally coated with a protective varnish, are available as options. Protection grade IP 40 (EN 60 529).

Resistance to thrown balls acc. to DIN 18 032, part 3 (option)
Clocks of this type series are also available resistant to thrown balls and thus suitable for schools, gymnasiums and other sporting facilities. Very sturdy metal case with 6 mm two-ply laminated mineral safety glass. These clocks conform to German Industry Standard and are certified and labelled "resistant to thrown balls according to DIN 18 032, part 3".

Front glass
Flat shock-resistant Plexiglas® XT (PMMA) as standard.

Packaging (option)
As an option, clockwork packaged to protect it against blown dust and/or sprayed water (IP 54 according to EN 60 529) is available.

Face
High distinction white metal with large black Arabic numerals for easy, doubt-free reading even over longer distances. Visible print diameters are 335 mm, 420 mm, and 503 mm respectively. Face printed according to DIN 41 091.

Radio controlled clocks of this type series are equipped with a plastic face for improved radio reception.

Hands
Black bar-type hour and minute hands.
Red second hands only on DCF77 radio controlled clocks with large second hands (**53**.xxx and **54**.xxx), on slave clocks with minute/second pulse (**72**.xxx), and on slave clocks with synchronous second hands (**74**.xxx).

Stainless steel V4A (option)
Due to its components stainless steel V4A is an alloy almost completely impervious to detergents and disinfectants and is therefore excellently suited for the use in the food and pharmaceutical industries, in kitchens, laboratories and other clean rooms. And it looks good into the bargain, as well!
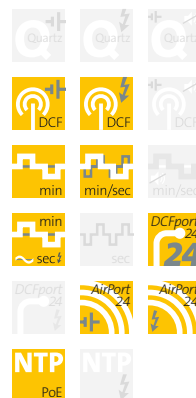

Stainless steel V4A + varnish (option)
V4A quality stainless steel with an additional coat of protective varnish is outstandingly resistant to acids and other chlorous media and is therefore particularly suited for public swimming pools as well as for the chemical industry.

Clocks for Large Spaces
double face, indoor

Large space
analog
double face

71.**372**.512 shown

Double face indoor clocks with **solid, industrial grade metal cases** with sturdy wall brackets or suspended from the ceiling, shock-resistant Plexiglas® XT front glasses.
The best decision for a reliable and durable product!

72.**372**.612 –22

⚠ Clock cases made of stainless steel V4A, blasted and varnished (optional) are resistant to saline or chlorous media. Excellently suited for permanent use in public swimming pools.

Case

- cir. 400 × 400 mm
- cir. 500 × 500 mm
- cir. 600 × 600 mm

very sturdy metal case enamelled white (RAL 9016). Optionally, at a surcharge, custom enamelled, as listed below. A stainless steel case (1.4301 X5CrNi 18-10, German trade name V2A) with a matted finish or a stainless steel case (1.4571 X6CrNiMoTi 17-12-2, German trade name V4A), blasted and additionally coated with a protective varnish, are available as options. Protection grade IP 40 (EN 60 529).

Mounting

Choice of double bracket wall or ceiling mounting, enamelled white, standard bracket length cir. 250 mm. Also available with lugs for suspension by ropes or chains as an option for larger ceiling heights.

Front glass

Flat shock-resistant Plexiglas® XT (PMMA).

Packaging (option)

As an option, clockwork packaged to protect it against blown dust and/or sprayed water (IP 54 according to EN 60 529) is available.

Faces

High distinction white metal with large black Arabic numerals for easy, doubt-free reading even over longer distances. Visible print diameters are 335 mm, 420 mm, and 503 mm respectively. Faces printed according to DIN 41 091.

Hands

Black bar-type hour and minute hands.
Red second hands on slave clocks with minute/second pulse (**72**.xxx) and on slave clocks with synchronous second hands (**74**.xxx) only.

Double face clocks

Double face clocks come completely wired and pre-assembled.
Just mount them and plug in – **that's it!**

Stainless steel V4A (option)

Due to its components stainless steel V4A is an alloy almost completely impervious to detergents and disinfectants and is therefore excellextly suited for the use in the food and pharmaceutical industries, in kitchens, laboratories and other clean rooms. And it looks good into the bargain, as well!
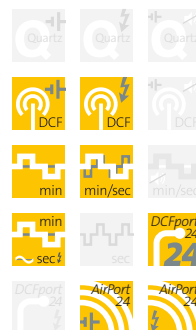

Stainless steel V4A + varnish (option)

V4A quality stainless steel with an additional coat of protective varnish is outstandingly resistant to acids and other chlorous media and is therefore particularly suited for public swimming pools as well as for the chemical industry.

Due to its components stainless steel V4A is an alloy almost completely impervious to detergents and disinfectants and is therefore excellently suited for the use in the food and pharmaceutical industries, in kitchens, laboratories and other clean rooms. And it looks good into the bargain, as well!
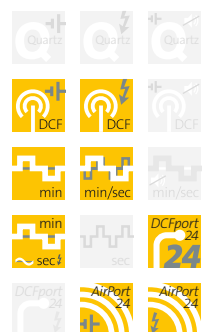

Stainless steel V4A + varnish (option)
V4A quality stainless steel with an additional coat of protective varnish is outstandingly resistant to acids and other chlorous media and is therefore particularly suited for public swimming pools as well as for the chemical industry.

NTP PoE

DCF77 radio controlled clocks
DCF77 radio controlled clocks of this type series will be supplied including a remotable DCF77 aerial (IP 68). Thus, optimum reception quality can be achieved regardless of the final placement of the clock itself. However, DCF77 radio controlled clocks will only function correctly within a radius of approx. 1,500 km around Mainflingen (50 km east of Frankfurt/M.).

PEWETA DCFport24
PEWETA DCFport24 slave clocks require a PEWETA master clock (see from page 178 on).

PEWETA AirPort24
PEWETA AirPort24 slave clocks require an AirPort24 transmitter or repeater respectively (see page 183).

NTP
NTP system clocks require a PEWETA master clock (see from page 178 on) or an NTP time server (see page 185).

Backlighted clock cubes
for indoor and outdoor use see pages 168 and 169.

84

Case

■ edge length cir. 565 mm, with four square faces, cir. 425 x 425 mm sturdy metal cube, enamelled in white (RAL 9016) as standard. Optionally, at a surcharge, enamelled in custom colours. A large hinged inspection flap on the top provides easy access for maintenance.
Protection grade IP 40 (EN 60 529).

Mounting

This clock cube will usually be suspended from the ceiling by metal ropes or chains. Due to varying requirements, ropes or chains are to be procured locally.
Four eyebolts are provided on the top of the case.

Front glasses

Flat shock-resistant Plexiglas® XT (PMMA).

Faces

High distinction white metal with large black Arabic numerals or large black DIN bar markings for easy, doubt-free reading even over longer distances. Visible face dimensions cir. 400 x 400 mm.
Faces printed according to DIN 41 091

Hands

Black bar-type hour and minute hands.
Red second hands on slave clocks with minute/second pulse (**72.**xxx) and on slave clocks with synchronous second hands (**74.**xxx) only.

Special clocks

Whether you look for dust-, water- or vapour-proof clocks (acc. to IP grade 64), clocks for high temperatures in sauna cabins, pace clocks indicating split times or clocks for surgical operating rooms in hospitals or other "clean room" applications – on the following pages you will find clocks for all specific requirements ...

Wall Clocks
waterproof, steam proof, dust proof

These clocks are packaged in waterproof, steam proof and dust proof cases and thus perfectly suitable for "critical" areas with blown dust and water thrown in sheets or other demanding environments.
They are not suitable for sauna cabins. Sauna clocks may be found on page 91 only.

Case
■ cir. 300 mm diameter
white plastic case, dust- and water-proof according to IP 64 (EN 60 529).

Front glass
Flat mineral glass, black sealing ring. Also available with shock-resistant Plexiglas® XT (option).

Face
White face with large black Arabic numerals for easy, doubt-free reading even over longer distances.

Hands
Black bar-type hour and minute hands, red second hand.

Option	Suffix	Surcharge € each
Custom logo on clock face (minimum order of 50)	**–47**	**on request**

Slave clocks
A separate control unit is required to operate the sauna slave clocks!
- For 1–2 sauna clocks, we recommend a type series **950** clave clock control unit, see page 178.
- For more than 2 sauna clocks and for longer wire lengths we recommend to use a type series **921** master clock, see page 178.

71.**426**.211

Training Clocks/Pace Clocks for indoors
water protected, with seconds cross
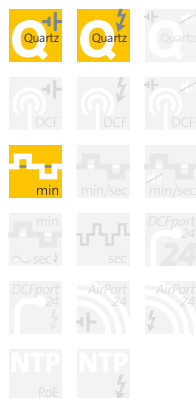

41.**430**.611 shown

Indoor
analog
single face

Type series
430

This kind of training/pace clock indicates split times during swim training/warm-up training. Times are taken by each swimmer individually. The 4-coloured seconds cross indicates the time elapsed, one complete turn corresponds to exactly 60 seconds.

For parallel operation of 2 training clocks, the slave clock type connected to the central control unit 10.**430**.100 is recommended. Thus an identical display (synchronous time) is always guaranteed on both training clocks connected.

Diagram shows
2 training clocks 71.**431**.611 ▶
with control unit 10.**430**.100

recommended wire for clock movement operation:
J-Y(ST)Y 2 x 2 x 0.8 mm²

control unit 10.**430**.100 for on-wall mounting, with on/off switch

220…230 VAC/
50…60 Hz mains

Backlighted training clocks
for indoors and outdoors see pages 166 and 167.

Case

■ cir. 600 × 600 mm

very sturdy metal case, enamelled white (RAL 9016). Optionally, at a surcharge, enamelled in metallic silver grey (RAL 9006), in dark gun metal (DB 703) or custom enamelled, as listed below. A stainless steel case (1.4571 X6CrNiMoTi 17-12-2, German trade name V4A), blasted and additionally coated with a protective varnish, is available as an option. Clock movement protected according to IP 54 (EN 60 529).

Resistance to thrown balls acc. to DIN 18 032, part 3 (option)

Wrench-off-proof mounting fixture and two-ply laminated mineral safety glass, thus suitable for ball sports facilities when durably mounted on-wall.

Clock types

■ Quartz movement, battery operated (2 x 1.5 V "Alkaline" LR 20, included). **Portable, therefore suitable for mobile use.**
ON/OFF switch on reverse side. With carrying handle. Setup on the edge of the pool. 2 pivoted feet ensure a firm position of clock on the ground. Or wall mounting.

■ Quartz movement, mains operated 230 V AC. **Recommended for continuous operation and for durable, fixed on-wall position.**
Wall mounting and fixed power supply only, incl. wrench-off-proof 3-point mounting fixture.

■ Slave movement, pulse operated 24 V. To be operated by fixed connection to control unit 10.**430**.100 only.
Recommended for synchronized, parallel operation of 2 training clocks/pace clocks 71.430.611 in securely fixed positions.
Wall mounting only, incl. 3-point wrench-off-proof mounting fixture. Control unit 10.**430**.100 is required for operation.

Face

High distinction white metal with red/black second bars and black numerals for easy, doubt-free reading. Reading distance cir. 30 m.

Hands

4-coloured seconds cross, intervals in second cycles.

Front glass

Flat shock-resistant Plexiglas® XT (PMMA) as standard

Function

The (swim) training/pace clock can be used by any number of swimmers simultaneously.

The crossed second hands show the time elapsed in seconds.

The swimmer will wait for a maximum of 14 seconds until the next colour of the four second hands ("his" colour) reaches the 12-o'clock-position and will then memorise the colour of "his" hand.

Upon reaching the edge of the pool (after 1 or 2 laps) the time elapsed can be read according to the position of "his" second hand.

Stainless steel V4A + varnish (option)

V4A quality stainless steel with an additional coat of protective varnish is outstandingly resistant to acids and other chlorous media and is therefore particularly suited for public swimming pools as well as for the chemical industry.

Technical data

Operating power (quartz clock type, battery operated)	2 x 1.5 V Mono/LR 20

Training Clocks/Pace Clocks for indoors
water protected, with minute and second hands

Indoor
analog
single face

Type series
431

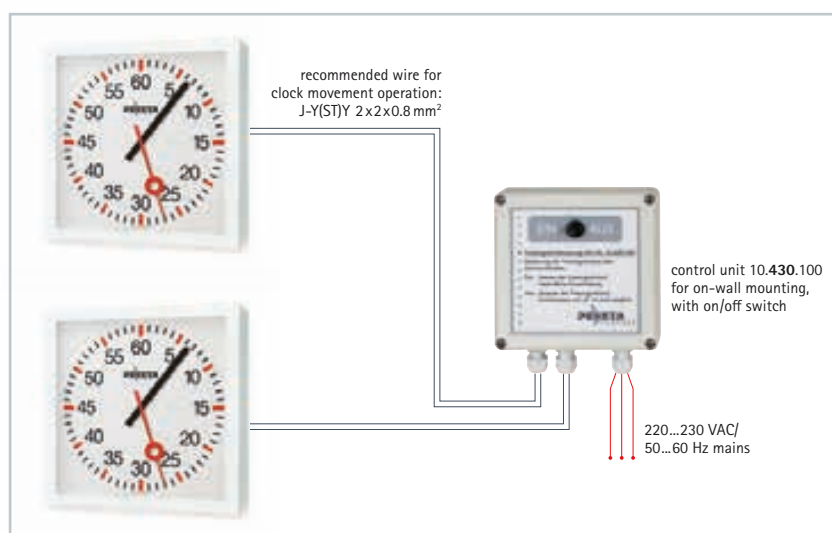

Also available
"**resistant**
to **thrown balls**"

41.**431**.611 shown

This kind of training/pace clock indicates split times during swim training/warm-up training. Times are taken by each swimmer individually. The clock indicates the elapsed time in minutes and seconds.

For parallel operation of 2 training clocks, the slave clock type connected to the central control unit 10.**430**.100 is recommended. Thus an identical display (synchronous time) is always guaranteed on both training clocks connected.

Diagram shows
2 training clocks 71.**431**.611 ▶

with on/off switch

220...230 VAC/
50...60 Hz mains

Case

■ cir. 600 x 600 mm

very sturdy metal case, enamelled white (RAL 9016). Optionally, at a surcharge, enamelled in metallic silver grey (RAL 9006), in dark gun metal (DB 703) or custom enamelled, as listed below. A stainless steel case (1.4571 X6CrNiMoTi 17-12-2, German trade name V4A), blasted and additionally coated with a protective varnish, is available as an option. Clock movement protected according to IP 54 (EN 60 529).

Resistance to thrown balls acc. to DIN 18 032, part 3 (option)

Wrench-off-proof mounting fixture and two-ply laminated mineral safety glass, thus suitable for ball sports facilities when durably mounted on-wall.

Clock types

■ Quartz movement, battery operated (2 x 1.5 V "Alkaline" LR 20, included). **Portable, therefore suitable for mobile use.**
ON/OFF switch on reverse side. With carrying handle. Setup on the edge of the pool. 2 pivoted feet ensure a firm position of clock on the ground. Or wall mounting.

■ Quartz movement, mains operated 230 V AC. **Recommended for continuous operation and for durable, fixed on-wall position.**
Wall mounting and fixed power supply only, incl. wrench-off-proof 3-point mounting fixture.

■ Slave movement, pulse operated 24 V. To be operated by fixed connection to control unit 10.**430**.100 only. **Recommended for synchronized, parallel operation of 2 training clocks/pace clocks 71.430.611 in securely fixed positions.**
Wall mounting only, incl. 3-point wrench-off-proof mounting fixture. Control unit 10.**430**.100 is required for operation.

42.**431**.611 **–22**

Face

High distinction white metal with red/black second bars and black numerals for easy, doubt-free reading. Reading distance cir. 30 m.

Hands

Black minute hand. Red second hand with "eye", intervals in second cycles.

Front glass

Flat shock-resistant Plexiglas® XT (PMMA) as standard.

Options – just as *you* like them ...

These clocks are available optionally with customised features at the surcharges as listed. Just pick your option(s) and add the appropriate suffix(es) to the Item No.

Clock cases made of stainless steel V4A, matted and varnished (option), are resistant to saltwater and other media containing chlorine. They are therefore excellently suited for permanent use in public swimming pools.

Function

The (swim) training/pace clock can be used by any number of swimmers simultaneously.

The elapsed time is displayed in minutes and seconds.

The swimmer will wait for a maximum of 59 seconds until the second hand reaches the 12-o'clock-position and will then memorise the position of the minute hand.

Upon finishing a training round the time elapsed can be easily calculated (time indicated minus the minutes memorised.)

Stainless steel V4A + varnish (option)

V4A quality stainless steel with an additional coat of protective varnish is outstandingly resistant to acids and other chlorous media and is therefore particularly suited for public swimming pools as well as for the chemical industry.

Analog Clocks for In-Wall Mounting
ideal for surgical operating rooms and other clean rooms

73.**460**.310
for mounting in conventional brick-and-plaster walls shown

These round analog clocks with stainless steel V4A cases were designed with the surgical operating room in mind. Mounted in-wall, flush with the surface, these reliable and accurate clocks meet all hygienic standards. Also suitable for all other demanding environments such as the pharmaceutical, beverage and food industries.

Metal mounting frame 01.**460**.300
for in-wall mounting in conventional brick walls
(flush with tiles or plaster)

Clock 81.**460**.310 for in-wall mounting
with spring-clip attachment device 01.**460**.301
for stud-and-panel wall mounting

Case
■ cir. 301 mm diameter
■ cir. 401 mm diameter
very high grade stainless steel case (1.4571 X6CrNiMoTi 17-12-2, German trade name V4A), for mounting flush with wall tiles or plaster. Visible surface with a matted finish, resistant to acids, detergents and disinfectants. In mounted condition protected against dust and moisture to IP 54 (EN 60 529).

Mounting
■ built-in/plaster
■ in stud-and-panel wall
A metal mounting frame for conventional brick walls or a spring-clip device for stud-and-panel walls is supplied with the clock.

Front glass
Flat mineral glass, 3 mm. Optionally treated for low reflectivity.

Face
High distinction white metal with black Arabic numerals. Face printed according to DIN 41 091.

Hands
Black bar-type hour and minute hands, red second hand.
No second hands on minute pulse 12...60 V controlled slave clocks.

Stainless steel V4A
Due to its components stainless steel V4A is not only completely impervious to detergents and disinfectants but also to acids and other aggressive media. The flush-mounted clocks of this type series are therefore particularly suited for the use surgical operating rooms and other clean rooms.

PEWETA CLOCKS

Analog Clocks for In-Wall Mounting
with digital stopwatch display, ideal for surgical operating rooms

73.**480**.310 shown

These analog clocks with LED digital stopwatch display with stainless steel V4A cases were designed with the surgical operating room in mind. Mounted in-wall, flush with the surface, these reliable and accurate clocks meet all hygienic standards. Also suitable for all other demanding environments such as the pharmaceutical, beverage and food industries.

02.**498**.101

02.**498**.102

For operating the stopwatch mode of the LED digital display we provide different remote control units in stainless steel cases. For a detailed product description please see page 110.

Case

■ cir. 301 x 387 mm
very high grade stainless steel case (1.4571 X6CrNiMoTi 17-12-2, German trade name V4A), for mounting flush with wall tiles or plaster. Visible surface with a matted finish, resistant to acids, detergents and disinfectants. In mounted condition protected against dust and moisture to IP 54 (EN 60 529).

Mounting

■ built-in/plaster
■ in stud-and-panel wall
■ on-wall mounting (optional)
A metal mounting frame for conventional brick walls or a spring-clip device for stud-and-panel walls is supplied with the clock. Optionally, at a surcharge, the clock may also be configured for on-wall mounting.

Front glass

Flat mineral glass, 3 mm. Glass on digital display is treated for low reflectivity. On analog face, low reflective glass is available as an option.

Face

High distinction white metal with black Arabic numerals. Face printed according to DIN 41 091.

Hands

Black bar-type hour and minute hands, red second hand.

No second hands on minute pulse 12...60 V controlled slave clocks.

LED digital display

6-digit 7-segment LED bars, digit colour red (option: amber or green). Digit height 25 mm. Automatic brightness control. Power supply is 230 V AC mains as standard, 12 V DC (option). Power loss reserve: Time telegram/pulse storage to cover cir. 100 hours.

Stopwatch mode

The 6-digit display will show hours, minutes and seconds, counting up from start. The stopwatch system is controlled by a remote control unit (as an extra), for technical data see page 110.

Stainless steel V4A

Due to its components stainless steel V4A is not only completely impervious to detergents and disinfectants but also to acids and other aggressive media. The flush-mounted clocks of this type series are therefore particularly suited for the use surgical operating rooms and other clean rooms.

LED Digital Clocks for In-Wall Mounting
with stopwatch mode (optional), ideal for surgical operating rooms

Indoor
digital
flush-mounted

Type series
490

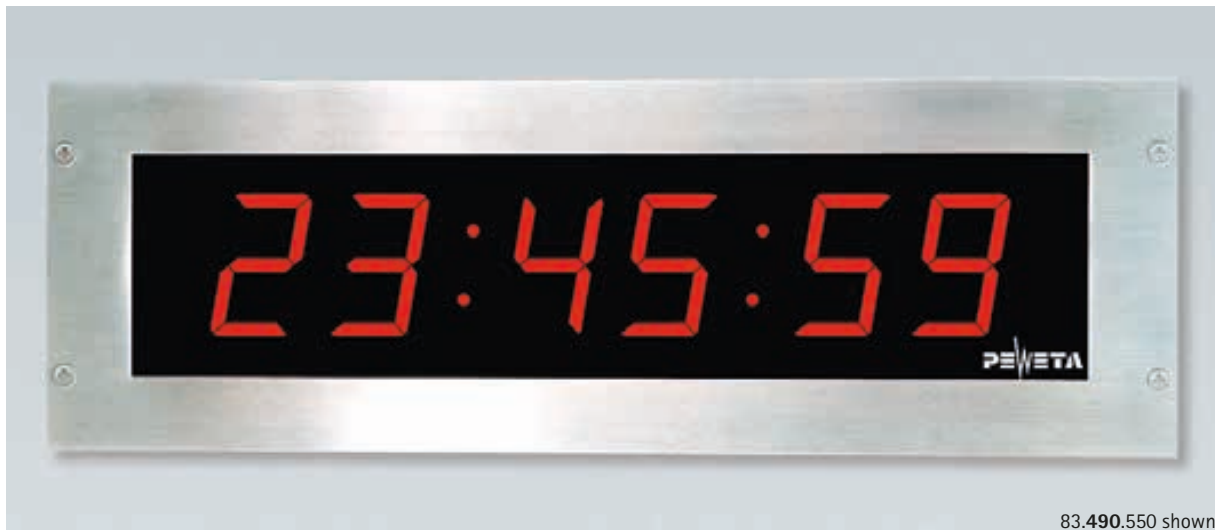

83.**490**.550 shown
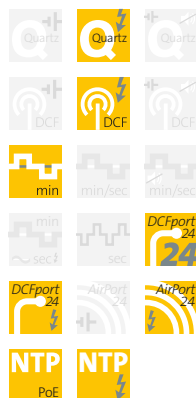

These LED digital clocks with stainless steel V4A cases were designed with the surgical oper-ating room in mind. They are mounted in-wall, flush with the surface, to meet all hygienic standards.

Configured in this type of case or in any other case adapted to customer's wishes, e. g.

■ for on-wall mounting,
■ for desk-top use or
■ as a double faced clock,

these clocks can be used in any demanding environment, such as the pharmaceutical, beverage and food industries, requiring accurate and dependable time information.

2 x 83.**490**.550 –89 and 01.**490**.503 shown

Double faced clock with ceiling bracket, stainless steel V4A

02.**498**.101

02.**498**.102

For operating the stopwatch mode (option) we provide different remote control units in stainless steel cases. For a detailed product description please see page 110.

Case

■ cir. 455 x 150 mm,
very high grade stainless steel case (1.4571 X6CrNiMoTi 17-12-2, German trade name V4A), for mounting flush with wall tiles or plaster. Visible surface with a matted finish, resistant to acids, detergents and disinfectants. In mounted condition protected against dust and moisture to IP 54 (EN 60 529).

Mounting

■ built-in/plaster
■ in stud-and-panel wall
■ on-wall mounting (optional)
■ double faced clocks may be suspended from the ceiling on brackets (optional).

A metal mounting frame for conventional brick walls or a spring-clip device for stud-and-panel walls is supplied with the clock. Optionally, at a surcharge, the clock may also be configured for on-wall mounting or as a double faced version.

LED digital display

6-digits, 2 each for hours, minutes and seconds. 7-segment LED bars, red as standard, amber or green as options. Digit height 57 mm for hour, minute and second. Second digit height 38 mm as an option. Automatic brightness control. Readability is excellent even at extremely sharp angles.

Front glass

Flat mineral glass, 3 mm, treated for low reflectivity.

Power supply

230 V AC/50 Hz is standard, 12 V DC mains is optional. Under specific circumstances, the bus voltage may suffice to operate PEWETA *DCFport24* version clocks[2]. Existing 2-wire or 4-wire slave clock bus lines may be re-used for 12 V DC or PEWETA *DCFport24* versions.

Stopwatch mode (optional)

These clocks can be fitted with a count up/split time stopwatch mode. The 6-digit LED display will show hours, minutes and seconds, counting up from start. The stopwatch system is controlled by a wire-based remote control unit (as an extra), for technical data see page 110.

Stainless steel V4A

Due to its components stainless steel V4A is not only completely impervious to detergents and disinfectants but also to acids and other aggressive media.
The flush-mounted clocks of this type series are therefore particularly suited for the use surgical operating rooms and other clean rooms.

PEWETA CLOCKS

Remote Control
ideally suited for surgical operating room in-wall clocks (digital or analog/digital)

Remote control
flush-mounted
or hand-held

These control units (wire-bound remote controls) were specially developed for use in hospital surgical operating rooms – flush with wall tiles, no hygienic limitations, reliable and accurate!
Also usable in other clean-room environments, such as pharmaceutical, beverage or food industries.

Case
Flush-with-tiles/wall surface stainless steel V4A (1.4571 X6CrNiMoTi 17-12-2) mounting frame for in-wall mounting, visible surfaces with a matted finish (K240), specially resistant to acids, detergents and disinfectants. In mounted condition protected against dust and moisture to IP 54 (EN 60 529).

Mounting
- built-in/plaster
- in stud-and-panel wall
- hand-held

The built-in version is supplied with either a mounting frame for mounting in conventional brick-and-plaster walls or a spring clip attachment device for stud-and-panel walls.
A hand-held version is also available. For dimensions please see table.

Functions
- switching between clock and stopwatch function
- start/stop (counting upwards)
- split times
- reset

When used with PEWETA LED-OP-in-wall clocks, no separate power supply is required. Connected to clock by 4-core-wire, such as LIYCY-0 4 x 0.25 mm² (standard length of cir. 5 m is supplied with control unit).

Digital Clocks
indoor · single- and double-sided

"Thirteen fortyfive" — contrary to analog clocks, digital clocks soundlessly indicate the time in a 24-hour mode.
This is particularly recommended for radio stations and TV studios, in world time clock systems and for places of high publicity, e. g. bank areas — locations where exact time should be shown in combination with the date.

LED Digital Clocks
for offices, production areas, and places of high publicity

81.**510**.551 shown

LED digital clocks, single- or
double-sided with distinct,
brightly lit LED bars guarantee
optimal reading clearness.

81.**510**.551 **–78** shown

71.**510**.553 **–79** shown

Case
- cir. 320 x 150 x 34 mm
  (cipher height 57 mm)
- cir. 520 x 250 x 43 mm
  (cipher height 100 mm)

Extra flat, very sturdy metal case,
enamelled black (RAL 9005).
Protection grade IP 40 (EN 60 529).

Mounting
- Single-sided version for on-wall
  mounting, optionally with an
  additional, sturdy wall or ceiling
  mounting bracket (accessory)
- Double-sided version includes
  sturdy wall or ceiling mounting
  bracket.

LED digital display
- cipher height 57 mm
- cipher height 100 mm

Single line display showing hours and
minutes, 4 digits, bar-type 7-segment
LED ciphers, colour red (optionally amber,
green or blue at a surcharge). Automatic
brightness control. Menu selection for
hour offset and suppression of leading
zero. Minimum 100 hours data retention
in case of power loss. Operating voltage
230 V AC/50...60 Hz (12 V DC/AC optional).
Under specific circumstances, the bus
voltage may suffice to operate PEWETA
DCFport24 version clocks [2].

Front glass
Flat acrylic glass.

Double-sided LED digital clocks
Double-sided clocks come completely
wired and assembled.
All settings will be taken over by both
sides automatically!

DCF77 radio controlled clocks
DCF77 radio controlled clocks of this type series will be supplied including a remotable DCF77 aerial (IP 68). Thus, optimum reception quality can be achieved regardless of the final placement of the clock itself. However, DCF77 radio controlled clocks will only function correctly within a radius of approx. 1,500 km around Mainflingen (50 km east of Frankfurt/M.).

PEWETA DCFport24
PEWETA DCFport24 slave clocks require a PEWETA master clock (see from page 178 on).

PEWETA AirPort24
PEWETA AirPort24 slave clocks require an AirPort24 transmitter or repeater respectively (see page 183).

NTP
NTP system clocks require a PEWETA master clock (see from page 178 on) or an NTP time server (see page 185).

[1] A remotable DCF77 receiving aerial (IP 68) is included in delivery shipment.
[2] Due to power consumption the number of clocks within the system/network is limited. Please ask for details when interested.
[3] NTP system clocks of "PoE" type require a PoE (Power over Ethernet) power supply. Appropriate hardware has to be supplied by customer.
[4] NTP system clocks require a LAN connection. Appropriate hardware has to be supplied by customer.

All prices are subject to change without notice, packing and shipping cost (see page 187) as well as VAT for deliveries within Germany added. Prices shown as of January 1st, 2025. If you have any questions or require additional information, please contact us, we will gladly give advice.

81.**511**.551 shown

LED digital clocks, single- or double-sided with distinct, brightly lit LED bars guarantee optimal reading clearness.

43.**548**.251 shown

71.**511**.553 **–89** shown

Case
- cir. 440 x 150 x 34 mm (cipher height 57 mm)
- cir. 770 x 250 x 43 mm (cipher height 100 mm)

Extra flat, very sturdy metal case, enamelled black (RAL 9005). Protection grade IP 40 (EN 60 529).

Mounting
- Single-sided version for on-wall mounting, optionally with an additional, sturdy wall or ceiling mounting bracket (accessory)
- Double-sided version includes sturdy wall or ceiling mounting bracket.

LED digital display
- cipher height 57 mm (option: 38 mm for seconds)
- cipher height 100 mm

Single line display showing hours, minutes and seconds, 6-digits, bar-type 7-segment LED ciphers, colour red (optionally amber, green or blue at a surcharge). Automatic brightness control. Menu selection for hour offset and suppression of leading zero. Minimum 100 hours data retention in case of power loss. Operating voltage 230 V AC/50...60 Hz (12 V DC/AC optional). Under specific circumstances, the bus voltage may suffice to operate PEWETA *DCFport24* version clocks[2].

Stopwatch mode (option)
These clocks can be fitted with an additional stopwatch mode (count-up/count-down). This mode is controlled by a wire-bound »Basic PRO« control unit (accessory). For technical details see page 135.

Front glass
Flat acrylic glass.

Double-sided LED digital clocks
Double-sided clocks come completely wired and assembled.
All settings will be taken over by both sides automatically!

DCF77 radio controlled clocks
DCF77 radio controlled clocks of this type series will be supplied including a remotable DCF77 aerial (IP 68). Thus, optimum reception quality can be achieved regardless of the final placement of the clock itself. However, DCF77 radio controlled clocks will only function correctly within a radius of approx. 1,500 km around Mainflingen (50 km east of Frankfurt/M.).

PEWETA DCFport24
PEWETA DCFport24 slave clocks require a PEWETA master clock (see from page 178 on).

PEWETA AirPort24
PEWETA AirPort24 slave clocks require an AirPort24 transmitter or repeater respectively (see page 183).

NTP
NTP system clocks require a PEWETA master clock (see from page 178 on) or an NTP time server (see page 185).

[1] A remotable DCF77 receiving aerial is included in delivery shipment.
[2] Due to power consumption the number of clocks within the system/ network is limited. Please ask for details when interested.
[3] NTP system clocks of "PoE" type require a PoE (Power over Ethernet) power supply. Appropriate hardware has to be supplied by customer.
[4] NTP system clocks require a LAN connection. Appropriate hardware has to be supplied by customer.
All prices are subject to change without notice, packing and shipping cost (see page 187) as well as VAT for deliveries within Germany added.
Prices shown as of January 1st, 2025. If you have any questions or require additional information, please contact us, we will gladly give advice.

LED Digital Calendar Clocks
for banks, reception areas, and other places of high publicity

Indoor
digital
single- and
double-sided

Type series
515

81.**515**.551 shown

LED digital clocks, single- or
double-sided with distinct,
brightly lit LED bars guarantee
optimal reading clearness.

71.**515**.553 shown

81.**515**.551 –**74** –**89** shown

Case
■ cir. 440 x 300 x 34 mm
Extra flat, very sturdy metal case,
enamelled black (RAL 9005).
Protection grade IP 40 (EN 60 529).

Mounting
■ Single-sided version for on-wall
mounting, optionally with addi-
tional, sturdy wall or ceiling
mounting brackets (accessory)
■ Double-sided version includes
sturdy wall or ceiling mounting
brackets.

LED digital display
2-line numeric display, top line showing
hours and minutes, cipher height 57 mm
(optional seconds: cipher height 57 mm
or 38 mm), bottom line showing 8-digit
numeric date, cipher height 45 mm, read-
able from 18...20 m distance. All ciphers
are bar-type 7-segment LED, colour red.
Automatic brightness control. Menu selec-
tion for hour offset and suppression of
leading zero. Minimum 100 hours data
retention in case of power loss. Operating
voltage 230 V AC/50...60 Hz (12 V DC /AC
optional). Under specific circumstances,
the bus voltage may suffice to operate
PEWETA DCFport24 version clocks[2].

Front glass
Flat acrylic glass.

Double-sided LED digital clocks
Double-sided clocks come completely
wired and assembled.

525

83.**525**.551 **–77** shown

83.**525**.551 **–77** shown

83.**525**.551 **–75 –77** shown

83.**525**.551 **–77 –88** shown

This 400 x 400 mm wall clock as standard shows the digital time in hours and minutes and has a circumferential ring of red LED bar marks that show the seconds, counting up. An additional 8-character alphanumeric LED display line makes this clock a veritable "information centre". Depending on the features selected this clock is capable of providing all the information required for the assigned function — exact, professional, attractive, and outright reliable!

Possible indications:
- 8-digit date display (26. 08. 2024)
- day of the week, spelled out (Monday)
- day of the week, abbreviated and date (Mon 26.08.)
- day of month and abbreviated month (26. Aug 24), multilingual
- additional display for seconds (48)
- stopwatch function (hh/mm/ss)
- temperature (20°C)
- city names at customer's choice with corresponding world time and time-zone details (city pre-sets, see pages 128 and 129).

Whether as a single clock, as a calendar clock full of information or integrated as "master" or "slave" in a World Time Display System — this clock speaks all languages and meets all demands!

Case

■ cir. 400 mm diameter metal, as standard enamelled jet black (RAL 9005). Optionally, at a surcharge, custom enamelled or with stainless steel case (1.4301 X5CrNi 18-10, German trade name V2A), in a matted finish.
Protection grade IP 40 (EN 60 529).

LED digital display(s)

4-digit hour and minute display, bar-type 7-segment LED ciphers, height 57 mm, colour red. Circumferential ring of red LED bars indicating the seconds, counting up. Automatic brightness control. Hour offset or leading zero selectable via menu. Minimum 100 hours data retention in case of power loss. Operating voltage 230 V AC/50...60 Hz (12 V DC/12 V AC optional). Under specific circumstances, the bus voltage may suffice to operate PEWETA *DCFport24* version clocks [2].

Alphanumeric display (option)

16-segment alphanumeric LED bar character display, up to 8 characters, character height 30 mm, to display numeric and alphanumeric information, e. g. day of the week, month, date, and seconds. At a surcharge, end times (stopwatch mode, option) or city names (option), can be displayed. Selection via menu. Alternating display possible. Various languages.

Front glass

Flat, shock-resistant Plexiglas®.

World Time Display System (option)

PEWETA LED digital clocks can be integrated into a professional and intelligent World Time Display System by the PEWETA *digital RS 485* data bus. Each individual LED digital clock receives the "pre-sets" pertaining to various time zones and city names. Upon selection of a time zone, local time will be displayed, regarding zone offset and local change-over dates for summer and winter time.

Stopwatch mode (option)

These clocks can be fitted with an additional stopwatch mode (count-up/count-down). The 8-digit alphanumeric display (option) will show hours, minutes and seconds, counting up from start or down from a pre-selected value. This mode is controlled by a wire-bound »Basic PRO« control unit (accessory). For technical data see page 135.

83.**526**.551 **–77 –88** shown

This 400 x 400 mm wall clock as standard shows the digital time in hours and minutes and has a circumferential ring of red LED bar marks that show the seconds, counting up. An additional 8-character alphanumeric LED display line makes this clock a veritable "information centre". Depending on the features selected this clock is capable of providing all the information required for the assigned function — exact, professional, attractive, and outright reliable!

Possible indications:
- 8-digit date display (25.09.2023)
- day of the week, spelled out (Monday)
- day of the week, abbreviated and date (Mon 25.09.)
- day of month and abbreviated month (25. Sep 23), multilingual
- additional display for seconds (48)
- stopwatch function (hh/mm/ss)
- temperature (20°C)
- city names at customer´s choice with corresponding world time and time-zone details (city pre-sets, see pages 128 and 129).

Whether as a single clock, as a calendar clock full of information or integrated as "master" or "slave" in a World Time Display System — this clock speaks all languages and meets all demands!

Case

■ cir. 400 x 400 mm
metal, as standard enamelled jet black (RAL 9005). Optionally, at a surcharge, custom enamelled.
Protection grade IP 40 (EN 60 529).

LED digital display(s)

4-digit hour and minute display, bar-type 7-segment LED ciphers, height 57 mm, colour red. Circumferential ring of red LED bars indicating the seconds, counting up. Automatic brightness control. Hour offset or leading zero selectable via menu. Minimum 100 hours data retention in case of power loss. Operating voltage 230 V AC/50...60 Hz (12 V DC/12 V AC optional). Under specific circum-stances, the bus voltage may suffice to operate PEWETA *DCFport24* version clocks[2].

Alphanumeric display (option)

16-segment alphanumeric LED bar character display, up to 8 characters, character height 30 mm, to display numeric and alphanumeric informa-tion, e. g. day of the week, month, date, and seconds. At a surcharge, end times (stopwatch mode, option) or city names (option), can be displayed. Selection via menu. Alternating dis-play possible. Various languages.

Front glass

Flat, shock-resistant Plexiglas®.

World Time Display System (option)

PEWETA LED digital clocks can be integrated into a professional and intelligent World Time Display System by the PEWETA *digital RS 485* data bus. Each individual LED digital clock receives the "pre-sets" pertaining to various time zones and city names. Upon selection of a time zone, local time will be displayed, regarding zone offset and local change-over dates for summer and winter time.

Stopwatch mode (option)

These clocks can be fitted with an additional stopwatch mode (count-up/count-down). The 8-digit alphanumeric display (option) will show hours, minutes and seconds, counting up from start or down from a pre-selected value. This mode is controlled by a wire-bound »Basic PRO« control unit (accessory). For technical data see page 135.

Options – just as *you* like them ...

These clocks are available optionally with customised features at the surcharges as listed. Just pick your option(s) and add the appropriate suffix(es) to the Item No.

[1] A remotable DCF77 receiving aerial is includ-ed in delivery shipment.
[2] Due to power consumption the number of clocks within the system/network is limited. Please ask for details when interested.
[3] NTP system clocks of "PoE" type require a PoE (Power over Ethernet) power supply. Appropriate hardware has to be supplied by customer.
[4] NTP system clocks require a LAN connection. Appropriate hardware has to be supplied by customer.
[5] Works with LED digital clocks including the *PEWETA digital RS485* »master« option only.
[6] Works with NTP system clock (NTP client) clock types only..

DCF77 radio controlled clocks
DCF77 radio controlled clocks of this type series will be sup-plied including a remotable DCF77 aerial (IP 68). Thus, optimum reception quality can be achieved regardless of the final placement of the clock itself. However, DCF77 radio controlled clocks will only function correctly within a radius of approx. 1,500 km around Mainflingen (50 km east of Frankfurt/M.).

PEWETA *DCFport24*
PEWETA DCFport24 slave clocks require a PEWETA master clock (see from page 178 on).

PEWETA *AirPort24*
PEWETA AirPort24 slave clocks require an AirPort24 trans-mitter or repeater respectively (see page 183).

NTP
NTP system clocks require a PEWETA master clock (see from page 178 on) or an NTP time server (see page 185).

43.**548**.251

All prices are subject to change without notice, packing and shipping cost (see page 187) as well as VAT for deliveries within Germany added. Prices shown as of January 1st, 2025. If you have any questions or require additional information, please contact us, we will gladly give advice.

LED World Time Clocks
as stand-alone units or combined into an integrated system
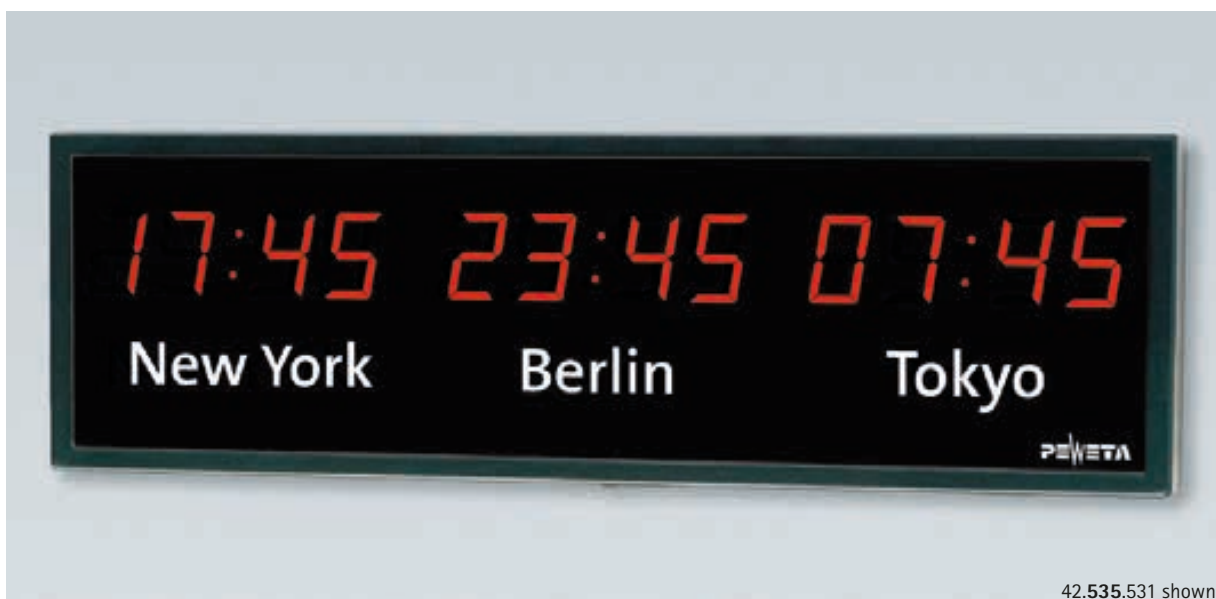

42.**535**.521 shown

42.**535**.531 shown

These PEWETA World Time Displays can be used as stand–alone units as well as combined with further LED World Time Displays into an integrated system. Permanent text overlays below the time displayed indicate the names of the cities chosen. The software already contains the "pre-sets" pertaining to various time zones and city names, so that all units can easily be set up to always show the correct time.

42.**535**.911 shown

LED digital clock, 4 digits, cipher height 100 mm, local time display

Case

■ cir. 520 x 250 x 43 mm
■ cir. 770 x 250 x 43 mm

sturdy metal case for on-wall mounting, as standard enamelled jet black (RAL 9005). Optionally, at a surcharge, custom enamelled.
Protection grade IP 40 (EN 60 529).

LED digital display

■ Cipher height 57 mm, 4 digits, for world time displays
■ Cipher height 100 mm, 4 or 6 digits, for local time displays

bar-type 7-segment LED ciphers, colour red (optionally, at a surcharge, amber, green or blue), automatic brightness control. Hour offset or leading zero may be selected via menu. Minimum 100 hours data retention in case of power loss. Operating voltage 230 V AC/50...60 Hz.

Front glass

Flat acrylic glass

City "pre-set"

City "pre-sets" turn any PEWETA LED digital clock into an intelligent, professional World Time Clock. Each display unit will receive a custom "pre-set" according to the name of the city chosen by the customer. This setting includes the individual time zone and the individual dates for change-over from summer to winter time and vice versa. Manual adjustment by menu is possible.

Alphanumeric LED digital display (option)

Alphanumeric LED digital display for city names instead of text overlays. 16-segment LED readout, max. 8 characters, character height 30 mm. The time zone desired and the name of the city are set by internal menu and may be changed at any time.

LED text display with NTP input flexible – as desired – modern

World Time Displays combined with LED text display and NTP input options provide you with a World Time Clock system that enables you to adjust time zones and settings **flexibly** and simply all by yourself.
Time zones as well as city names can be adjusted **as desired** and can be changed at any time if required.
This provides you with a **modern** World Time Clock, that also meets all future requirements.

LED Ultimatum Display
for police, armed forces and crisis management

LED-Ultimatum display

52.**538**.171 **–82** shown

42.**538**.851 **–83** shown

Display of an ultimatum in days, hours, minutes, and seconds. Separate display of current date and time. Simple operation by an external control unit. Data transmission either via RS485 or via network/LAN.

43.**538**.200

23.09.26   09:25:35
Target time   04.10.26   00:00:00
Countdown

10 days
14:34:25
hrs.   mins.   secs.

Stop

Countdown setup on the control unit

Date/time display

Extra flat metal case for wall mounting, enamelled black,
W x H x D: cir. 1040 x 250 x 43 mm.
Single line display of date and time, high-grade LED bar display, cipher colour green.
Date display: 4-digit display of day and month, cipher height 57 mm.
Time display: 6-digit display of hours, minutes, and seconds, cipher height 100 mm. Synchronisation via DCF77, GPS, NTP, or *DCFport24* telegram from a master clock possible.

Ultimatum display

Extra flat metal case for wall mounting, enamelled black,
W x H x D: cir. 1040 x 250 x 43 mm.
Single line display of day(s) and time, high-grade LED bar display, cipher colour red.
2-digit display of days, 6-digit display of hours, minutes, and seconds, cipher height 100 mm.

Control unit

Wired control unit in a light grey table top plastic case,
W x H x D: cir. 106 x 176 x 54 mm.
LCD touch display to operate the ultimatum function or to set up a countdown.

Function

The green date/time display always shows the current date and time.
If an incident occurs, one of the following inputs must be made on the control unit:

- Input of a target date and a target time
  (Example: An ultimatum will expire tomorrow at 18:00 h)

Upon input, the control unit will calculate the time remaining in days, hours, minutes, and seconds.
The time calculated will be displayed as a countdown on the control unit as well as on the ultimatum display.

- Input of an initial value
  (Example: The ultimatum will expire in 2 days and 4 hours)

Upon input of an initial value in days, hours, minutes, and seconds, the time entered will be displayed as a countdown on the control unit as well as on the ultimatum display.

PEWETA data bus RS485 version

Date/time display, the ultimatum display, and the control unit are connected via the PEWETA RS485 data bus. The date/time display will receive the current time information from a separate input (DCF77, GPS, or *DCFport24* telegram).
The control unit is connected to the date/time display and will receive the current time information as well as its power supply from that connection.
Operating voltage of the ultimatum display and the date/time display is 230 VAC.
The PEWETA RS485 data bus system requires the date/time display as a mandatory component!

Network (LAN) version

The date/time display, the ultimatum display, and the control unit will each be connected by a LAN access point including an individual IP Address.
The control unit will receive the current time information via NTP and its power supply via PoE. Addressing via web browser allows multiple ultimatum displays to be controlled by a single control unit.
The ultimatum display and the date/time display are either supplied with 230 VAC power or via PoE.
In the network system, the date/time display is active as a pure time display and is therefore not absolutely necessary. Any other PEWETA LED digital clock in its »NTP system clock« version may be included into the system for displaying the time, and time and date, respectively.
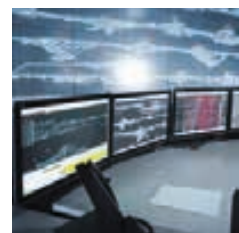

LED-Ultimatum display

Options – just as *you* like them ...

These clocks are available optionally with customised features at the surcharges as listed. Just pick your option(s) and add the appropriate suffix(es) to the Item No.

DCF77 radio controlled clocks
DCF77 radio controlled clocks of this type series will be supplied including a remotable DCF77 aerial (IP 68). Thus, optimum reception quality can be achieved regardless of the final placement of the clock itself. However, DCF77 radio controlled clocks will only function correctly within a radius of approx. 1,500 km around Mainflingen (50 km east of Frankfurt/M.).

PEWETA *DCFport24*
PEWETA DCFport24 slave clocks require a PEWETA master clock (see from page 178 on).

PEWETA *AirPort24*
PEWETA AirPort24 slave clocks require an AirPort24 transmitter or repeater respectively (see page 183).

NTP
NTP system clocks require a PEWETA master clock (see from page 178 on) or an NTP time server (see page 185).

43.**548**.251

[1] A remotable DCF77 receiving aerial is included in delivery shipment.
[2] Due to power consumption the number of clocks within the system/network is limited. Please ask for details when interested.
[3] NTP system clocks of "PoE" type require a PoE (Power over Ethernet) power supply. Appropriate hardware has to be supplied by customer.
[4] NTP system clocks require a LAN connection. Appropriate hardware has to be supplied by customer.
[5] Works with LED digital clocks including the *PEWETA digital RS485* »master« option only.
[6] Works with NTP system clock (NTP client) clock types only.

All prices are subject to change without notice, packing and shipping cost (see page 187) as well as VAT for deliveries within Germany added. Prices shown as of January 1st, 2025. If you have any questions or require additional information, please contact us, we will gladly give advice.

NTP
NTP system clocks require a PEWETA master clock (see from page 178 on) or an NTP time server (see page 185).

71.**545**.250 shown

Case
For flush panel mounting, face plate stainless steel (1.4301 X5CrNi 18/10, German trade name V2A), matted finish, acrylic front glass.
W x H x D: cir. 257 x 64 x 77 mm. Protection grade IP 40 (EN 60 529).

LED digital display
Display of hours, minutes, and seconds, 6 digits, bar-type 7-segment LED ciphers, height 25 mm, colour red. Automatic brightness control. Configurable as time display or for count-up/count-down function (option). Hour offset or leading zero may be selected via menu. Minimum 100 hours data retention in case of power loss. Operating voltage 230 V AC/50...60 Hz (12 V DC/AC optional). Under specific circumstances, the bus voltage may suffice to operate PEWETA *DCFport24* version clocks [2].

Stopwatch mode (option)
These clocks can be fitted with an additional stopwatch mode (count-up/count-down). The 6-digit numeric display (option) will show hours, minutes and seconds, counting up from start or down from a pre-selected value. This mode is controlled by a wire-bound »Basic PRO« control unit (accessory). For technical data see page 135.

»Basic PRO« Remote Control Unit
for LED digital clocks equipped with stopwatch mode

This active, wire-bound "Basic PRO" remote control unit is capable of turning PEWETA LED digital clocks into stopwatches (stopwatch mode is an option), and acts as a terminal for their operation. Connection can be established either via PEWETA *digital RS 485* data bus or via NTP. *Both versions* enable synchronous count-up/count-down functions of all connected LED digital clocks. Since each clock within the system can be addressed individually, one remote control unit can control several stopwatches in various locations or several remote control units, e.g. at different work stations, can simultaneously trigger one LED stopwatch. By means of software, these functions can be flexibly defined and can be easily selected by the user.

Case
Sturdy plastic tip-up case for desktop use. Dimensions (length x width) cir. 175 x 105 mm.
5" LCD touchscreen, active area cir. 108 x 65 mm, for easy operation. The status line at the top of the screen shows the current date and time as well as the status of the *PEWETA digital RS 485* or NTP connection, respectively.

Types
- **PEWETA digital RS485**
  Connection to an LED digital clock via *PEWETA digital RS485 bus*. Time and date as well as operating power are transferred to the remote control from a type *PEWETA data bus RS485 „master"* LED digital clock. Each remote control unit and LED digital clock can be addressed individually.
- **NTP**
  This remote control unit features a network connection (RJ45). Time and date are imported via NTP. Power is supplied via PoE (Power over Ethernet). Remote control units and LED digital clocks may be individually assigned via a web browser. Operation in connection with NTP system clock (NTP client) clock types only.

DCF77 radio controlled clocks
DCF77 radio controlled clocks will only function correctly within a radius of approx. 1,500 km around Mainflingen (50 km east of Frankfurt/M.) and under conditions of free radio propagation and may be impaired in heavily reinforced concrete structures. For this case we recommend a remotable DCF77 aerial (option).

PEWETA DCFport24
PEWETA DCFport24 slave clocks require a PEWETA master clock (see from page 178 on).

AluNox®
AluNox® is an anodised aluminium. While resistant to corrosion, detergents, and disinfectants, it is also abrasion-proof. The surface of AluNox® is visually very similar to stainless steel with a matted finish, yet is noticeably lighter and impervious against fingerprints. Therefore, AluNox® is excellently suited for areas where its visual resemblance of stainless steel will mainly serve decorative purposes.

PEWETA CLOCKS

LED Digital Displays
- **Time-/Date Displays**
- **Game Result Displays (Scoreboards)**
single-sided · indoor

These digital displays are champions when it comes to displaying information and results doubt-free and easy to comprehend. Optimum clearness of display combined with premium quality – a professional choice in every aspect!

LED Digital Displays, indoor
## for large rooms and halls

LED digital displays
single-/double-sided, indoor

52.**620**.181 shown

Large, sturdy digital displays with distinct LED bars, optimum readability for large rooms and (assembly) halls.

52.**620**.183

52.**620**.181, date display

LED digital displays for outdoors
see pages 170 and 172.

Case

- cir. 880 x 264 x 39 mm
  (cipher height 180 mm)
- cir. 1230 x 350 x 39 mm
  (cipher height 250 mm)

sturdy case made from powder-coated aluminium profiles, case colour black.
Protection grade IP 40 (EN 60 529).

Mounting

- single face type for on-wall mounting, or with additional, sturdy ceiling-mount fixture (accessory)
- double face type including sturdy ceiling-mount fixture, standard length 100 mm. Other lengths available on request (option).

Front glass

Flat shock-resistant plastic glass treated for low reflectivity, additional filter layer for optimum readability.

LED digital display

4-digit display with high-grade bar-type LEDs, 7-segment technology, cipher colour red (other LED colours available, see options). Cipher height 180 mm or 250 mm, manual or automatic brightness control. Alternating display of time, date, and temperature possible (intervals adjustable).
Operating voltage 230 V AC/50..60 Hz.

Infrared remote control unit

All settings and the operation of the stopwatch mode are triggered by a wireless infrared remote control unit, included in delivery shipment.
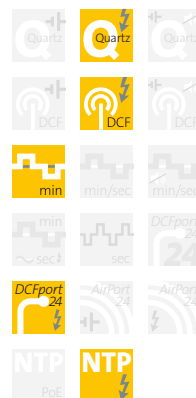

Stopwatch mode

This LED digital display can also be used as a stopwatch in count-up, count-down, and training modes.
Various modes and key functions can be set. Operation by the wireless infrared remote control unit included.

Further models

On request, the LED digital displays of this type series are also available with other cipher heights.

These clocks are available optionally with customised features at the surcharges as listed. Just pick your option(s) and add the appropriate suffix(es) to the Item No.

DCF77 radio controlled clocks
DCF77 radio controlled clocks of this type series will be supplied including a remotable DCF77 aerial (IP 68). Thus, optimum reception quality can be achieved regardless of the final placement of the clock itself. However, DCF77 radio controlled clocks will only function correctly within a radius of approx. 1,500 km around Mainflingen (50 km east of Frankfurt/M.).

PEWETA *DCFport24*
PEWETA DCFport24 slave clocks require a PEWETA master clock (see from page 178 on).

LED digital displays for outdoors
see pages
170 and 172.

All prices are subject to change without notice, packing and shipping cost (see page 187) as well as VAT for deliveries within Germany added. Prices shown as of January 1st, 2025. If you have any questions or require additional information, please contact us, we will gladly give advice.

LED Digital Displays, indoor
for large rooms and halls

LED digital displays
single-/double-sided, indoor

Case
- cir. 1260 x 264 x 39 mm (cipher height 180 mm)
- cir. 1720 x 350 x 39 mm (cipher height 250 mm)

sturdy case made from powder-coated aluminium profiles, case colour black.
Protection grade IP 40 (EN 60 529).

Mounting
- single face type for on-wall mounting, or with additional, sturdy ceiling-mount fixture (accessory)
- double face type including sturdy ceiling-mount fixture, standard length 100 mm. Other lengths available on request (option).

Front glass
Flat shock-resistant plastic glass treated for low reflectivity, additional filter layer for optimum readability.

LED digital display
6-digit display with high-grade bar-type LEDs, 7-segment technology, cipher colour red (other LED colours available, see options). Cipher height 180 mm or 250 mm, manual or automatic brightness control. Alternating display of time, date, and temperature possible (intervals adjustable).
Operating voltage 230 V AC/50..60 Hz.

Infrared remote control unit
All settings and the operation of the stopwatch mode are triggered by a wireless infrared remote control unit, included in delivery shipment.

Stopwatch mode
This LED digital display can also be used as a stopwatch in count-up, count-down, and training modes.
Various modes and key functions can be set. Operation by the wireless infrared remote control unit included.

LED digital displays
single-/double-sided, indoor

"resistant to **thrown balls**"
acc. to VDE 0710/DIN 18032

24.**676**.321 shown

During basketball games, the bottom line indicates the number of team fouls

Alternatively, as a selectable setting, a red square marker can be set to indicate the 5th team foul

Game result displays/scoreboards, in 7-Segment LED display technology, cipher heights 250 mm and 200 mm respectively, reading distance up to cir. 110 m. Outstandingly suited for most kinds of indoor sports, such as indoor soccer, handball, basketball, volleyball, hockey, badminton, and table tennis.

Sturdy metal case, enamelled black, for on-wall mounting, polycarbonate front glass treated for low reflectivity, resistant to thrown balls in accordance with German standards VDE 0710, part 13:1981-05 and DIN 18032, part 3.

24.**676**.322

Game result display board with LED text display for team names

Scoreboard 24.676.321:

- **Time display** (250 mm), 4-digit, white, showing minutes and seconds of game time, time elapsed or time-to-go
- **Real time clock** (250 mm), showing current time in hours and minutes when no game is going on (instead of game time), quartz-based, optionally DCF77 radio controlled (including receiving aerial) or connected to a PEWETA Master Clock by means of a *DCFport24* interface (accessories)
- **Score** (250 mm), 3 digits (0..199) per team, red, showing score/final result
- **Period** (200 mm), 1 digit, green, showing current period of game
- **Penalty time** (200 mm), 3 digits per team, amber, showing penalty time remaining
- **Team fouls** (200 mm), 1 digit per team, amber, showing total fouls per team during basketball games (instead of penalty time)
- **Red square marker**, 1 per team, can be set to indicate the 5th foul of a team during basketball games
- **Time-out,** 3 symbols per team (green dots), showing time-out periods taken
- **Service,** 1 symbol per team (red arrow), showing service or ball possession
- **Acoustic signal** (horn), built-in, indicates time-out, end of period or game over, may be triggered either automatically or manually (116 dB at 1 m)
- Permanent **HOME/GUEST** marking by self-adhesive film, available in various languages.

Scope of delivery

- **1 control panel,** multi-lingual, data transfer by radio, frequency 868..869 MHz (standard), or wire-based (set of wires is an accessory), with LCD display and keyboard. 13 kinds of sports stored. Additional, freely programmable mode or training mode
- **1 wall plug adapter** for charging the rechargeable batteries of the control panel
- **1 hand-held control unit** to send start, stop, and time-out commands and to trigger the horn, incl. 2 m wire for hook-up with the control panel (if required)
- **1 transport case** (cir. 355 x 255 x 86 mm) to safely store control panel, control unit, and plug adapter.

Scoreboard 24.676.322:

exactly as Scoreboard 24.**676**.321, however, additionally with

- **LED text display** (120 mm), amber, alphanumeric, to indicate the teams' names (instead of "HOME", "GUEST"), up to 9 characters per team, or to display information/advertisements with up to 20 characters in moving-script-method (up to 1,000 characters programmable). PC keyboard with connection wire to the control panel is included.

Further models
of this type series with 150 mm LED cipher height for small (single field) sports halls are available on request.

LED 14-/24-Second Display Boards, indoor
for **basketball**, with or without time display

PEWETA CLOCKS

LED game result displays
single-sided indoor

Type series
676

Augmenting display boards, resistant to thrown balls, for displaying attack time during a basketball game (24-seconds-rule). Shipment in pairs. Operation in connection with an LED scoreboard of type series 676 <u>only</u>!

Sturdy black plastic case for on-wall mounting or for mounting on substructure supplied by client. Polycarbonate front glass treated for low reflectivity, resistant to thrown balls in accordance with German standards VDE 0710, part 13:1981-05 and DIN 18032, part 3.

- ■ **Type 24.676.613:**
- ■ **Attack time (230 mm)**, 2-digit, red, showing the duration of current attack (adjustable to 14 or 24 seconds), counting down. Tenths of seconds shown during final 5 seconds
- ■ **State of game**, 1 illuminated red dot, showing time-out
- ■ **Acoustic signal** (horn), built-in, automatically resounds after end of attack time (116 dB at 1 m).

- ■ **Type 24.676.622:**
- ■ **Time display (160 mm)**, 4-digit, amber, showing game time elapsed (taken over from main scoreboard)
- ■ **Attack time (250 mm)**, 2-digit, red, showing the duration of current attack (adjustable to 14 or 24 seconds), counting down. Tenths of seconds shown during final 5 seconds
- ■ **State of game**, 1 illuminated red dot, showing time-out
- ■ **Acoustic signal** (horn), built-in, automatically resounds after end of attack time (116 dB at 1 m).

Scope of delivery
- ■ **2 displays** acc. to description
- ■ **1 hand-held control unit** to be connected to the control unit of the main scoreboard, including 2 m of wire. Separate keys to adjust to 14 or 24 seconds (new FIBA rule of October 2014)
- ■ **1 transport case** (cir. 265 x 225 x 50 mm) to safely store control unit and wire.

"resistant to **thrown balls"**
acc. to VDE 0710/DIN 18032

PEWETA CLOCKS

Outdoor Clocks
analog and digital
single, double and four faces

Time displayed outdoors, in a modern analog clock or displayed digitally alternating with date and temperature, ideally combined with your company´s logo, has always been and still is a public service information in high demand. Take advantage of this demand by using PEWETA outdoor clocks and display systems! Water protected and resistant against weather and other environmental influences.

Outdoor
analog
single face

Type series
730

Outdoor Clocks
single face, round, **not backlighted**

Also available
"**resistant**
to **thrown balls**"

71.**730**.421 shown

Extraordinarily sturdy **high quality industrial grade** outdoor clocks. Solid workmanship, not backlighted, weather protected case (IP 54/EN 60 529).

Also available "resistant to thrown balls" according to DIN 18 032, part 3.

71.**730**.411

Case

- cir. 446 mm diameter
- cir. 546 mm diameter
- cir. 646 mm diameter

very sturdy metal case, enamelled metallic dark gun metal (DB 703) or, as an option, enamelled in metallic silver grey (RAL 9006) or custom enamelled, as listed below. Extraordinarily solid construction, absolutely corrosion resistant and weatherproof.
Protection grade IP 54 (EN 60 529).

Mounting
Wall mounting.

Resistance to thrown balls
acc. to DIN 18 032, part 3 (option)

Clocks of this type series are also available resistant to thrown balls and thus suitable for school yards and sporting facilities. Very sturdy case with three-point mounting as a safeguard, proof against wrenching of the hook. Front glass is a 2-layer laminated safety glass, 6 mm thick. The clocks are certified and labelled "resistant to thrown balls according to DIN 18 032, part 3".

Front glass

Flat shock-resistant Plexiglas® XT (PMMA) as standard.

Face

High distinction white metal, choice of large black Arabic numerals or large black DIN bar markings. Very distinctive and easy doubt-free reading even over longer distances. Visible face diameter 420 mm, 520 mm resp. 620 mm. Faces printed according to DIN 41 091.

Hands

Pointed black DIN bar-type hands (DIN 41 092) for hour and minute.

Red second hand on slave clocks with minute/second pulse (**72**.xxx) and on slave clocks with synchronous second hands (**74**.xxx) only.

Outdoor

DCF77 radio controlled clocks
DCF77 radio controlled clocks of this type series will be supplied including a remotable DCF77 aerial (IP 68). Thus, optimum reception quality can be achieved regardless of the final placement of the clock itself. However, DCF77 radio controlled clocks will only function correctly within a radius of approx. 1,500 km around Mainflingen (50 km east of Frankfurt/M.).

PEWETA DCFport24
PEWETA DCFport24 slave clocks require a PEWETA master clock (see from page 178 on).

PEWETA AirPort24
PEWETA AirPort24 slave clocks require an AirPort24 transmitter or repeater respectively (see page 183).

NTP
NTP system clocks require a PEWETA master clock (see from page 178 on) or an NTP time server (see page 185).

Case
■ cir. 670 mm diameter
■ cir. 902 mm diameter
weatherproof aluminium case.
Outside 2-layer tempered enamel,
light grey (RAL 7035). Optionally
custom enamelled, at a surcharge.
Extraordinarily solid construction,
incl. light fitting. Absolutely corrosion
resistant and weatherproof.
Protection grade IP 54 (EN 60 529).

Mounting
On-wall mounting as standard. At a
surcharge, a wall or ceiling mounting
bracket or a pole adapter are available
as options.

Front glass
Shock-resistant, highly transparent
4 mm Plexiglas® XT. For locations prone
to impact or public areas, unbreakable
Makrolon® (polycarbonate) front glass is
available as an option.

Face (backlighted)
Acrylic plastic, white, translucent, 5 mm
thick, large black DIN bar markings (or
black Arabic numerals as an option). Very
distinctive and easy doubt-free reading
even over longer distances.
Face printed according to DIN 41 049.

Illumination
Backlighting by durable, maintenance-free
light-emitting diodes (LEDs), operating
voltage 230 V AC/50...60 Hz. As an option,
a light-sensitive switch can be included.

Hands
Pointed black DIN bar-type hands
(DIN 41 092) for hour and minute.
Distinctive red "Railway Station clock"
type second hand with "eye" on slave clock
with synchronous second hand (**74**.xxx)
only.

No second hand on other clock types.

■ cir. 670 mm diameter
■ cir. 902 mm diameter
weatherproof aluminium case.
Outside 2-layer tempered enamel,
light grey (RAL 7035). Optionally
custom enamelled, at a surcharge.
Extraordinarily solid construction,
incl. light fitting. Absolutely corrosion
resistant and weatherproof.
Protection grade IP 54 (EN 60 529).

Mounting
Choice of wall or ceiling mounting,
standard length cir. 240 mm.
Optionally, at a surcharge, a ceiling
suspension in extended length,
cir. 480 mm, or a pole adapter are
available.

Front glasses
Shock-resistant, highly transparent
4 mm Plexiglas® XT. For locations prone
to impact or public areas, unbreakable
Makrolon® (polycarbonate) front glasses
are available as an option.

Faces (backlighted)
Acrylic plastic, white, translucent, 5 mm
thick, large black DIN bar markings (or
black Arabic numerals as an option).
Very distinctive and easy doubt-free
reading even over longer distances.
Faces printed according to DIN 41 049.

Illumination
Backlighting by durable, maintenance-free
light-emitting diodes (LEDs), operating
voltage 230 VAC/50…60 Hz. As an option,
a light-sensitive switch can be included.

Hands
Pointed black DIN bar-type hands
(DIN 41 092) for hour and minute.
Distinctive red "Railway Station clock"
type second hands with "eye" on slave
clock with synchronous second hands
(**74.**xxx) only.

No second hands on other clock types.

Training Clocks/Pace Clocks, for in- and outdoors,
## with seconds cross, **backlighted by LED**

42.**765**.611 shown

This kind of training/pace clocks indicates split times during swim training/warm-up training. Times are taken by each swimmer individually. The 4-coloured seconds cross indicates the time elapsed, one complete turn corresponds to exactly 60 seconds.

For parallel operation of 2 training clocks, the slave clock type connected to the central control unit 10.**430**.100 is recommended. Thus an identical display (synchronous time) is always guaranteed on all training clocks connected.

Diagram shows

features at the surcharges as listed. Just pick your option(s)
and add the appropriate suffix(es) to the Item No.

Function

The (swim) training/pace clock can be
used by any number of swimmers simul-
taneously.
The crossed second hands show the time
elapsed in seconds.
The swimmer will wait for a maximum
of 14 seconds until the next colour of
the four second hands ("his" colour)
reaches the 12-o'clock-position and will
then memorise the colour of "his" hand.
Upon reaching the edge of the pool
(after 1 or 2 laps) the time elapsed can
be read according to the position of
"his" second hand.

**Training clocks
resistent to
thrown balls**
for indoors see pages
92 and 93.

Outdoor Clocks (also suitable for large halls)
## four faces, backlighted
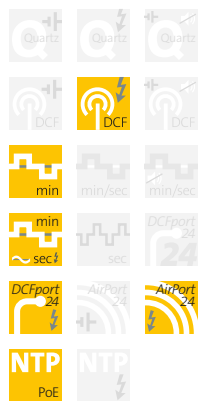

71.**790**.626 shown
with pole adapter 01.790.001

Extraordinarily sturdy **high quality industrial grade** outdoor clocks. Also suitable for indoors, e.g. for large halls.
Solid workmanship, backlighted, weather protected case (IP54/EN 60 529).

We provide a ready-to-install product which can be mounted and connected without problem. The clock contains finished electrical wiring as well as mechanical fixing points for mounting. On request, we will be happy to support you with additional mounting instructions and other information.
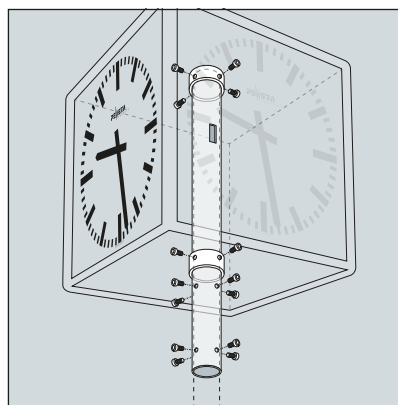

Pole adapter 01.**790**.001
As a minimum, the pole must be inserted up to the floor plate of the clock case. For optimum stability, however, the pole should reach as far as the top panel of the clock case.

Different face and hand variations are possible (option).

Case
- cir. 780 x 780 x 780 mm
  weight cir. 80 kg
- cir. 980 x 980 x 980 mm
  weight cir. 100 kg

Weatherproof metal case, four faces, including light fitting. Frame of extruded hollow aluminium mouldings, neatly mitred at all corners. Clock faces are attached to frame with hidden stainless steel hinges and inspection latches for maintenance access. Interior of case permanently ventilated to avoid condensation. Outside surface anodised in silver (E6/EV1) as standard, or, at a surcharge, custom enamelled (option).

Mounting
As standard, no mounting fixtures are included in delivery shipment.
Optional mounting accessories:
- A reinforced floor plate for mounting on solid ground
- A pole adapter for centred mounting, diameter adapted to the existing pole. The adapter extends from the bottom of the clock case's top panel as far as 300 mm below the floor plate of the case. The pole may be inserted into the inside of the clock case at will.

The clock case is designed for wind loads of up to cir. 0.5 KN/m² (standard value). Actual wind loads depend on the individual location and have to be accounted for locally. This considered, a sufficiently firm footing is to be made sure.

Front glasses
Single-pane safety glass (according to German safety standard ESG), embedded in permanently elastic, weatherproof special gaskets.

Faces (backlighted)
Acrylic plastic, translucent, white, 5 mm, large DIN black bar markings. Very distinctive and easy doubt-free reading even over longer distances. Other face and hand variations are available on request (options). Faces printed according to DIN 41 049.

Illumination
Fluorescent tubes for 230 V AC/50...60 Hz are installed and wired as standard.
As an option, LED tubes can be included instead of fluorescent tubes.
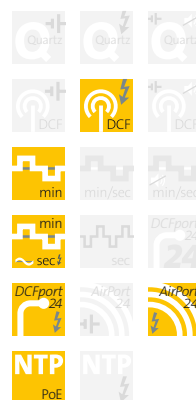

Hands
Pointed black DIN bar-type hands (DIN 41 902) for hour and minute. Distinctive red "Railway Station clock" type second hands with "eye" on slave clock with synchronous second hands (**74.xxx**) only.

Case with lugs for suspension by ropes or chains (indoor mounting only)	–30	**475.–**
Faces with nostalgic hands and Roman numerals (instead of bar markings with bar-type hands)	–24	**on request**
Backlighting by LED tubes (instead of fluorescent tubes)	–43	**650.–**
Light-sensitive switch for internal illumination	–44	**390.–**
Custom logo on clock face	–47	**on request**

Clocks of this type series are also available with Arabic numerals.
To order, replace the 7th digit "2" of the Item No. by "1", Example: 71.**790**.6<u>1</u>6. Faces with Arabic numerals.

Options – just as *you* like them ...
These clocks are available optionally with customised features at the surcharges as listed. Just pick your option(s) and add the appropriate suffix(es) to the Item No.

Security advice:
Fulfilment of local building standards and other pertinent safety regulations as well as preparation of the mounting surface or load bearing calculations for the foundation and wind loads on the supporting structure are always the responsibility of the customer and/or his architect/building contractor.

DCF77 radio controlled clocks
DCF77 radio controlled clocks of this type series will be supplied including a remotable DCF77 aerial (IP 68). Thus, optimum reception quality can be achieved regardless of the final placement of the clock itself. However, DCF77 radio controlled clocks will only function correctly within a radius of approx. 1,500 km around Mainflingen (50 km east of Frankfurt/M.).

PEWETA DCFport24
PEWETA DCFport24 slave clocks require a PEWETA master clock (see from page 178 on).

PEWETA AirPort24
PEWETA AirPort24 slave clocks require an AirPort24 transmitter or repeater respectively (see page 183).

NTP
NTP system clocks require a PEWETA master clock (see from page 178 on) or an NTP time server (see page 185).

[1] A remotable DCF77 receiving aerial is included in delivery shipment.
[2] *DCFport24* pulse telegram slave clocks require a 230 V AC power supply.
[3] NTP system clocks of "PoE" type require a PoE (Power over Ethernet) power supply. Appropriate hardware has to be supplied by customer.

Clock cubes for indoor use
see pages 84 ... 87.

All prices are subject to change without notice, packing and shipping cost (see page 187) as well as VAT for deliveries within Germany added. Prices shown as of January 1st, 2025. If you have any questions or require additional information, please contact us, we will gladly give advice.

Case
- cir. 840 × 260 × 82 mm
  (cipher height 180 mm)
- cir. 1250 × 350 × 83 mm
  (cipher height 250 mm)

sturdy case made from powder-coated aluminium profiles, case colour black. Mounting on tilting bracket for easy Installation and maintenance.
Protection grade IP 40 (EN 60 529).

Mounting
- single face type for on-wall mounting, or with additional, sturdy ceiling-mount fixture (accessory)
- double face type including sturdy wall-mount fixture, standard length cir 90 mm or ceiling-mount fixture, standard length 100 mm. Other lengths available on request.

Front glass
Flat plastic glass treated for low reflectivity, additional filter layer for optimum readability.

LED digital display
4-digit display with high-grade double-row LEDs, 7-segment technology, cipher colour red (other LED colours available, see options). Cipher height 180 mm or 250 mm, manual or automatic brightness control. Alternating display of time, date, and temperature possible (intervals adjustable).
Operating voltage 230 V AC/50..60 Hz.

Infrared remote control unit
All settings and the operation of the stopwatch mode are triggered by a wireless infrared remote control unit, included in delivery shipment.

Stopwatch mode
This LED digital display can also be used as a stopwatch in count-up, count-down, and training modes.
Various modes and key functions can be set. Operation by the wireless infrared remote control unit included.

Further models
On request, the LED digital displays of this type series are also available with other cipher heights.

LED Soccer Score Display Board, outdoor
showing game time and time respectively

"resistant to thrown balls"
acc. to VDE 0710/DIN 18032

24.**830**.422 shown

7-segment LED technology score
display board, cipher height
460 mm, reading distance up
to cir. 180 m.
Suitable for soccer, rugby, and
lawn hockey.

Case

■ cir. 2500 x 1800 x 90 mm consisting of 2 modules. Very sturdy aluminium cases, enamelled black. Protection grade IP 54 (EN 60 529).

Resistance to thrown balls

The soccer score display board of this type series is resistant to thrown balls in accordance with German standards VDE 0710, part 13:1981-05 and DIN 18032, part 3 and thus are suitable for outdoor sporting facilities.

Mounting

On-wall mounting by means of 4 angular metal brackets (included in delivery shipment).
Rear-side mounting bracket for attachment to a double T-beam or pole pipe available on request.

Front glass

Flat shock-resistant plastic glass.

HOME/GUEST labelling

Permanent labelling by self-adhesive film, available in various languages.

Score display

One 2-digit display per team, 7-segment triple-row LED technology, cipher colour red, cipher height 460 mm. Manual brightness control in 9 steps triggered by the control panel.

Game time display

4-digit display with 7-segment triple-row LED technology, cipher colour red, cipher height 460 mm, showing game time in minutes and seconds during a game.
Real time display showing hours and minutes when no game is going on possible. Quartz technology (DCF77 receiving aerial or time display interface to import the *DCFport24* pulse telegram from a PEWETA master clock available as accessories).

Scope of delivery

■ **1 control panel**, multi-lingual, transfer by radio, frequency 868 .. 869 MHz (standard), or wire-based (option), with LCD display and keyboard. Programs for soccer, rugby, and lawn hockey stored
■ **1 wall plug adapter** for charging the rechargeable batteries of the control panel
■ **1 transport case** (cir. 355 x 255 x 86 mm) to safely store control panel and plug adapter.

Further models

of this type series with 250 mm LED cipher height for small sports facilities or with LED text display for team names or messages in moving-script-method available on request.

Control Units

- **Master Clocks/Signalling Master Clocks**
- **DCF77/GPS Receiving Aerials**
- **Booster for Master Clocks**
- ***AirPort24* Transmitter and Repeater**
- **NTP Time Server**
- **19" Modular Master Clock System**

Clock systems, as compared to stand-alone clocks, have one main advantage: all connected slave clocks display *identical* time. The "source of time" for this time display service always is the Master Clock.

Master Clock/Signalling Master Clock
Using an internal quartz time base, the maximum error is cir. ±0.1 sec. per day. If a radio receiver (DCF77 or GPS) is connected, the Master Clock will evaluate the time-and-date signals received, check for and correct any possible discrepancies and then transmit the updated time information as pulses (minute-, half minute- or second-pulses) or as a telegram (e.g. PEWETA *DCFport24* telegram by wire, *AirPort24* wireless telegram) to all connected slave clocks. Summer/winter time change-over is performed automatically. If the Master Clock is required, in addition to transmitting the time-and-date information, to effect switching operations, such as activation of optical and/or acoustic signalling devices to indicate start of work or break periods, in industry or

at schools, master clocks can be equipped with additional signal (switching) outputs. These output terminals are free-floating and capable of controlling also other external equipment, such as lighting, air conditioning, ventilation, heating or security alarm systems as well as many others.

Conventional pulse
Conventional slave clocks are advanced by alternating polarity pulses (minute-pulse or second-pulse) one time unit at a time. 4-core wire is recommended for the slave clock control line(s), recommended type is J-Y(ST)Y 2×2×0,8 mm², but existing 2-wire lines may continue in use.

DCFport24 pulse telegram
PEWETA slave clocks with *DCFport24* input are controlled by a wire-transmitted DCF77 pulse (time and date) telegram. Their advantages over conventional slave clocks are:
- extremely easy "plug-and-play" installation
- no need to watch for control line polarity
- quick initiation by automatic, extremely rapid self-adjustment to current time, regardless of position of hands on analog clocks at delivery

- Central second hand(s) available as standard for clock faces up to 400 mm diameter.
- When changing over from conventional pulse control to the PEWETA *DCFport24* pulse telegram, existing 2-wire lines or networks may continue in use. For new installations, use of 4-core wire type J-Y(ST)Y 2×2×0,8 mm² is recommended.
- There is a possibility to use existing conventional slave clocks simultaneously with new PEWETA *DCFport24* pulse telegram slave clocks. To make use of this possibility, a PEWETA Master Clock series 920 with 2 slave clock lines is required as a minimum. Parallel operation on a single slave clock line requires a PEWETA Master Clock series 921. Type of pulse and/or telegram may be assigned to each slave clock line individually.
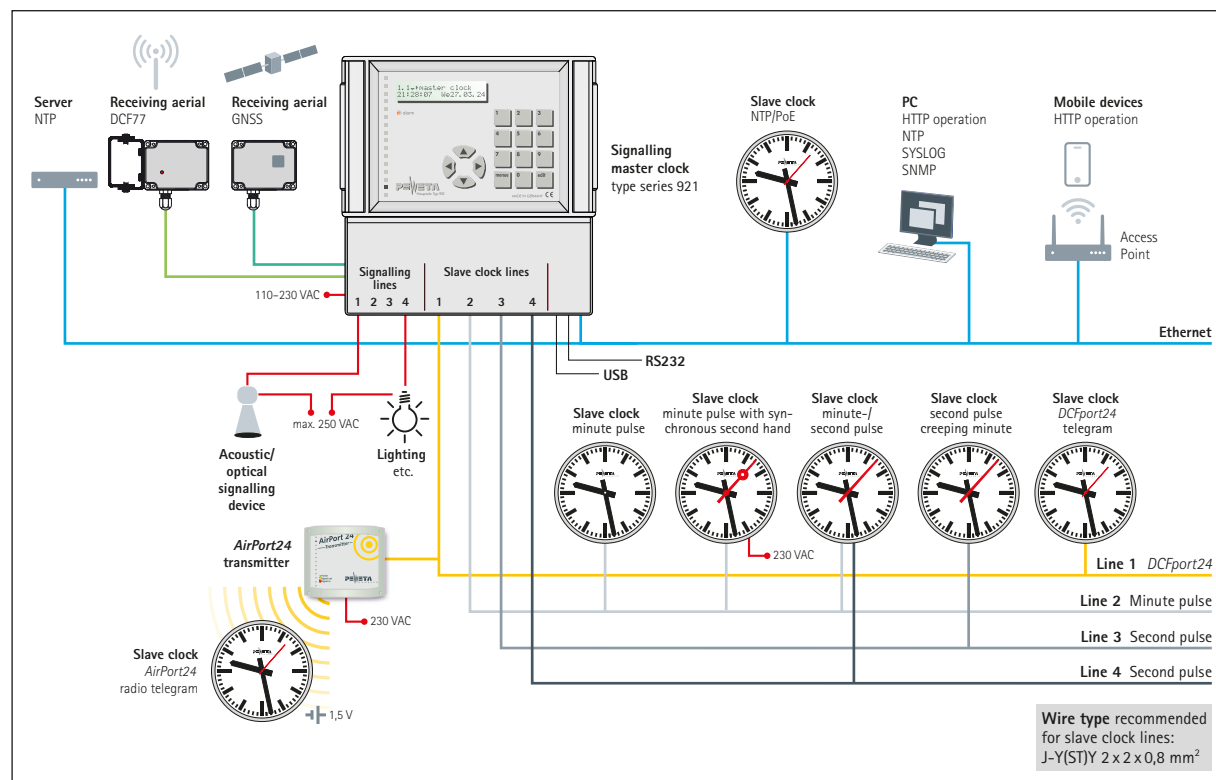

AirPort24 radio telegram (RF)
The PEWETA *AirPort24* system enables a
- wireless transmission of time and date information to all *AirPort24* slave clocks (868..869 MHz frequency band).
For more information please ask for our data sheet.

Wiring Diagram
for PEWETA type series 921 Master Clock

Wiring diagram for type series 921 Master Clock

Slave clocks of the following types
may be operated by a PEWETA type series 921 Master Clock:

Minute Pulse, 12 ... 60 V

The polarity alternating pulse is distributed by a two-wire line. In analog clocks, the minute pulse also is the power supply. Before initiation, all slave clocks must be manually pre-set to indicate the starting time. All clocks must be connected in the same polarity.

Minute and Second Pulse, 12/24 V

To control slave clocks with minute/second pulse movements, a Master Clock with a minimum of 2 slave clock lines is required. In addition to the minute pulse (see above), a polarity alternating second pulse is transmitted on a separate (!) 2-wire line. In analog clocks, the minute and second pulse also is the power supply. Before initiation, all slave clocks must be manually pre-set to indicate the starting time. All clocks must be connected in the same polarity.

Minute Pulse 12/24 V, Synchronous Second, 230 V AC/50...60 Hz

Same function as minute pulse 12...60 V, however, the creeping second hand is powered by 230 V AC/50...60 Hz mains and is synchronised to the polarity alternating minute pulse at every full minute.

Second Pulse 12/24 V with Creeping Minute

To control slave clocks with a second pulse only movement a second pulse with a 12-hour cycle is required. The polarity alternating second pulse is transmitted by a 2-wire line, the creeping minute hand is "pulled along". In analog clocks, the second pulse also is the power supply. Before initiation, all slave clocks must be manually pre-set to indicate the starting time. All clocks must be connected in the same polarity.

DCFport24 Telegram

An interference-protected DCF77 telegram (12/24 V) is transmitted by a 2-wire line. All clocks connected to the system will automatically adjust to current time (plug-and-play), independent of polarity and position of hands in analog clocks. No manual pre-setting of time is required. For analog clocks and LCD digital clocks, this also provides the operating power. Analog clocks with faces up to 400 mm diameter always come equipped with a second hand.

The DCFport24 is also capable of providing power for a limited number of LED digital clocks, otherwise, 230 V AC/50...60 Hz (for other voltages, please call us) mains power is required.

For further information please ask for our data sheet.
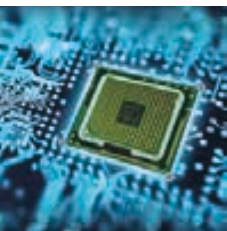

AirPort24 Radio Telegram

To control slave clocks by AirPort24 radio telegram, at least 1 AirPort24 transmitter, and if conditions dictate, 1 AirPort24 repeater are required, in addition to a PEWETA type 921 master clock. A wire network, as in conventional slave clock systems, is not required, complete time and date information is distributed interference-proof by RF transmission (in the 868...869 MHz UHF band) throughout a radius of cir. 250 m to all slave clocks located in this reception area. All clocks self-adjust to current time immediately and fully automatically (plug-and-play) . Analog clocks may operate either on 1.5 V battery power or 230 V AC/50...60 Hz mains, LED digital clocks always need 230 V AC/50...60 Hz (other voltages/cycles on request) mains power. Analog clocks with faces up to 400 mm diameter always come equipped with a second hand.

For further information about the AirPort24 radio telegram please ask for our data sheet.

Different clock drive modes may be used in parallel on different slave clock lines.

All prices are subject to change without notice, packing and shipping cost (see page 187) as well as VAT for deliveries within Germany added. Prices shown as of January 1st, 2025. If you have any questions or require additional information, please contact us, we will gladly give advice.

177

Master Clock/Signalling Master Clock
DCF77, GPS or LAN/NTP controlled
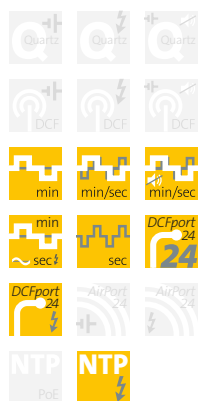

10.**921**.122 shown

Typical performance data

Control of slave clocks
- **1, 2 or 4 slave clock lines**
- **Line voltage** 12 V or 24 V
- **Line mode** may be selected as
- alternating polarity minute pulse
- alternating polarity half-minute pulse
- alternating polarity second pulse
- *DCFport24* telegram
- *DCFport24* and minute pulse, parallel operation of conventional slave clocks and *DCFport24* telegram slave clocks on a single slave clock line.
- **Pulse duration** is adjustable from .2 sec to 9.9 sec.
- **Total output power** is 1 A at 24 V line voltage to control up to
- 160 conventional slave clocks (at 6 mA/24 V each) or up to
- 50 PEWETA *DCFport24* telegram slave clocks, expandable by using a pulse amplifier (Item Number 10.**930**.124), see page 182.
- Optional **power outage reserve**, selectable for individual slave clock lines. A rechargeable 12 V/1.5 Ah NiMh battery provides for continued operation of the master clock and all connected clocks in case of a mains power outage.

- Upon **return of mains power** (e. g. after a mains outage) all connected clocks immediately readjust to current time.
- **Slave clock lines with voltage and current surveillance**. Mains power outage, overload (or low voltage when operating in memory mode) in the clock control line will cause an alarm by red LED as well as an alarm flag in the display and messages via network as SYSLOG or SNMP.
- **Slave clocks will automatically be stopped when low voltage is detected.**
- **Secondary Master Clocks** for expanding the clock system may be synchronised by the *DCFport24* output.
- For the control of world time displays, freely configurable and pre-programmed **zone times** are included.
- 1 **RS232 serial interface** (output) is available for continuous transmission of time-and-date information in ASCII format.

Signalling device
- 0, 2 or 4 programmable signal contacts (switch points/free-floating contacts) capable of 250 VAC/2 A
- Choice of program run for a day, a week or a year
- 300 switch actions programmable
- ON/OFF switching or pulse action as well as suppress and release functions

- Fastest possible switching sequence: 1 second
- Fixed-program calendar through 2099
- Data retention on power outage > 5 years.

Network
- Ethernet port (RJ45)
- Easy set-up by web browser. Program slave clock lines, switch actions and system settings from a **PC**, a **tablet** or a **smartphone**
- Ethernet IEEE 802.3 10/100BASE-T: HTTP, NTP, (S)NTP, DHCP, SYSLOG, SNMP

Additional performance data
- Radio control by DCF77 (option)
- Radio control by GNSS/GPS-GLONASS-GALILEO (option)
- NTP/Network Time Protocol input terminal (RJ45) for synchronisation by LAN (option)
- Alphanumeric LCD display for user-friendly dialog-type navigation, time-and-date readout and alarm indications
- PIN-coded keyboard lock
- A temperature compensated crystal oscillator (TCXO) ensures a deviation of less than 0.1 seconds/day during autonomous operation
- USB 2.0 Type A port for software updates by USB stick.

DCF77 Receiving Aerial for all type series 921 Master Clocks

03.**925**.111 shown

The DCF77 time signal telegram, as transmitted by the German time signal transmitter at Mainflingen near Frankfurt/Main, is a superior time standard for synchronization and automatic change from summer to winter time of radio controlled stand-alone clocks and master/slave clock systems. This PEWETA DCF77 aerial provides time-and-date information to all PEWETA Master Clocks and Signalling Master Clocks.

- Weatherproof plastic case (IP 68), for indoor/outdoor mounting, dimensions (W x H x D) cir. 100 x 65 x 37 mm
- Stainless steel mounting bracket
- 5 m connecting wire (LIYCY 4 x 0,25 mm²) included in delivery shipment, may be extended to a maximum length of 100 m.

Type	Item No.	€ each
External DCF77 receiving aerial (IP 68), for PEWETA Master Clocks	03.**925**.111	169.–

19" Master Clock/Signalling Master Clock
DCF77, GPS or LAN/NTP controlled

11.**921**.122 shown

Typical performance data

Control of slave clocks

- **2 or 4 slave clock lines**
- **Line voltage** 12 V or 24 V
- **Line mode** may be selected as
- alternating polarity minute pulse
- alternating polarity half-minute pulse
- alternating polarity second pulse
- *DCFport24* telegram
- *DCFport24* and minute pulse, parallel operation of conventional slave clocks and *DCFport24* telegram slave clocks on a single slave clock line.
- **Pulse duration** is adjustable from .2 sec to 9.9 sec.
- **Total output power** is 1 A at 24 V line voltage to control up to
- 160 conventional slave clocks (at 6 mA/24 V each) or up to
- 50 PEWETA *DCFport24* telegram slave clocks, expandable by using a pulse amplifier (Item Number 10.**930**.124), see page 182.
- **Power outage reserve**, selectable for individual slave clock lines. A rechargeable 12 V/1.5 Ah NiMh battery provides for continued operation of the master clock and all connected clocks in case of a mains power outage.

- Upon **return of mains power** (e. g. after a mains outage) all connected clocks immediately readjust to current time.
- **Slave clock lines with voltage and current surveillance**. Mains power outage, overload (or low voltage when operating in memory mode) in the clock control line will cause an alarm by red LED as well as an alarm flag in the display and messages via network as SYSLOG or SNMP.
- **Slave clocks will automatically be stopped when low voltage is detected.**
- **Secondary Master Clocks** for expanding the clock system may be synchronised by the *DCFport24* output.
- For the control of world time displays, freely configurable and pre-programmed **zone times** are included.
- 1 **RS232 serial interface** (output) is available for continuous transmission of time-and-date information in ASCII format.

Signalling device

- 0, 2 or 4 programmable signal contacts (switch points/free-floating contacts) capable of 250 VAC/2 A
- Choice of program run for a day, a week or a year
- 300 switch actions programmable
- ON/OFF switching or pulse action as well as suppress and release functions

- Fastest possible switching sequence: 1 second
- Fixed-program calendar through 2099
- Data retention on power outage > 5 years.

Network

- Ethernet port (RJ45)
- Easy set-up by web browser. Program slave clock lines, switch actions and system settings from a **PC**, a **tablet** or a **smartphone**
- Ethernet IEEE 802.3 10/100BASE-T: HTTP, NTP, (S)NTP, DHCP, SYSLOG, SNMP

Additional performance data

- Radio control by DCF77 (option)
- Radio control by GNSS/GPS-GLONASS-GALILEO (option)
- NTP/Network Time Protocol input terminal (RJ45) for synchronisation by LAN (option)
- Alphanumeric LCD display for user-friendly dialog-type navigation, time-and-date readout and alarm indications
- PIN-coded keyboard lock
- A temperature compensated crystal oscillator (TCXO) ensures a deviation of less than 0.1 seconds/day during autonomous operation
- USB 2.0 Type A port for software updates by USB stick.

Booster Amplifier
Wall or top hat bar mounting, or 19" rack mounting

Booster amplifier

When a Master Clock reaches its limits of total power output, pulse boosting amplifiers are needed for further extension of the master/slave clock system.

The short-circuit-proof slave clock line output terminals can be freely configured as
- alternating polarity minute pulse
- alternating polarity second pulse
- *DCFport24* pulse telegram.

Electronic buffer memory and automatic updating circuitry cover power outages and ensure return to correct time if power returns within 24 hours.

Item No. 10.930.124
1 slave clock line input/output terminal 12/24 V, total output power 1.5 A at either 12 V or 24 V, capable of controlling up to
- 250 conventional slave clocks (at 6 mA/24 V)
  or
- 125 *DCFport24* pulse telegram slave clocks (á 12 mA/24 V).

Plastic case (IP 20/EN 60529) for wall mounting or mounting on a 35 mm top hat bar. Operating voltage 230 V AC/50...60 Hz, (external power supply for mounting on a 35 mm top hat bar, included in delivery shipment).

Item No. 11.930.224
2 slave clock lines input/output terminals 12 V or 24 V, total output power 3 A (1.5 A per line), capable of controlling up to
- 500 (max. 250 per line) conventional slave clocks (at 6 mA/24 V)
  or
- 250 (max. 125 per line) *DCFport24* pulse telegram slave clocks (at 12 mA/24 V).

Metal case (IP 10/EN 60 529) for mounting in 19" sub-rack, dimensions (W x H x D) 213 mm (42 WU) x 128 mm (3 HU) x 230 mm. Operating voltage 230 V AC/50...60 Hz.

PEWETA *AirPort24* Transmitter and Repeater
Time distribution by RF transmission (868 … 869 MHz)

As an alternative to wire-bound clock systems or to individual clocks with DCF77 aerials, the PEWETA *AirPort24* radio telegram technology permits the distribution of a time signal by radio inside or outside of buildings.

The PEWETA *AirPort24* transmitter receives the time and date telegram either by wire from a PEWETA type series 921 Master Clock (see pages 178 … 181) or as an NTP client by LAN and transmits the complete time/date information by radio (in the 868..869 MHz UHF-band) with a range of about 250 m inside buildings (up to cir. 1,000 m outdoors). All PEWETA *AirPort24* radio telegram slave clocks within this range will automatically self-adjust to the current time and date indication.

Using PEWETA *AirPort24* repeaters extends the range by a further 250 m per repeater.

PEWETA *AirPort24* transmitter
Transmitter with integrated aerial for distributing the PEWETA *AirPort24* time/date telegram to all radio telegram slave clocks within a radius of cir. 250 m inside buildings (up to cir. 1,000 m outdoors).
Choice of **input signal**:
- **PEWETA *DCFport24* telegram** for synchronization by a PEWETA type series 921 Master Clock
- **NTP** for synchronization by LAN (NTP client).

PEWETA *Airport24* repeater
Receives the PEWETA *AirPort24* time/date telegram from the PEWETA *AirPort24* transmitter and transmits the PEWETA *AirPort24* time/date telegram to radio telegram slave clocks within a radius of cir. 250 m inside buildings (up to cir. 1,000 m outdoors).

10.**940**.100 shown

AirPort24 transmitter and repeater

Output power		adjustable in steps, up to 500 mW
Operating voltage		230 V AC/50 … 60 Hz (mains adapter included)
Case	material	plastic, light grey
	dimensions	cir. 199 x 178 x 57 mm
	protection grade	IP 54 (EN 60529)

PEWETA *AirPort24* transmitter	Item No.	€ each
Input: PEWETA *DCFport24* pulse telegram	10.**940**.100	825.–
Input: NTP synchronization by LAN (NTP client)	10.**940**.200	999.–

PEWETA *AirPort24* repeater	Item No.	€ each
Input: PEWETA *AirPort24* radio telegram	10.**941**.100	925.–

Characteristics
- Transmission of the complete time/date telegram
- Reliable transmission of time/date telegram within a range of 250 m inside buildings, more than 1,000 m outdoors
- Unlimited number of *AirPort24* telegram slave clocks within this range
- Cost-effective and simple wireless installation
- Capable of unlimited expansion by using repeaters
- Location of clocks at random, indoors or outdoors within transmission range
- Also suitable to expand existing, wire supported slave clock networks.

183

Slave clock control unit
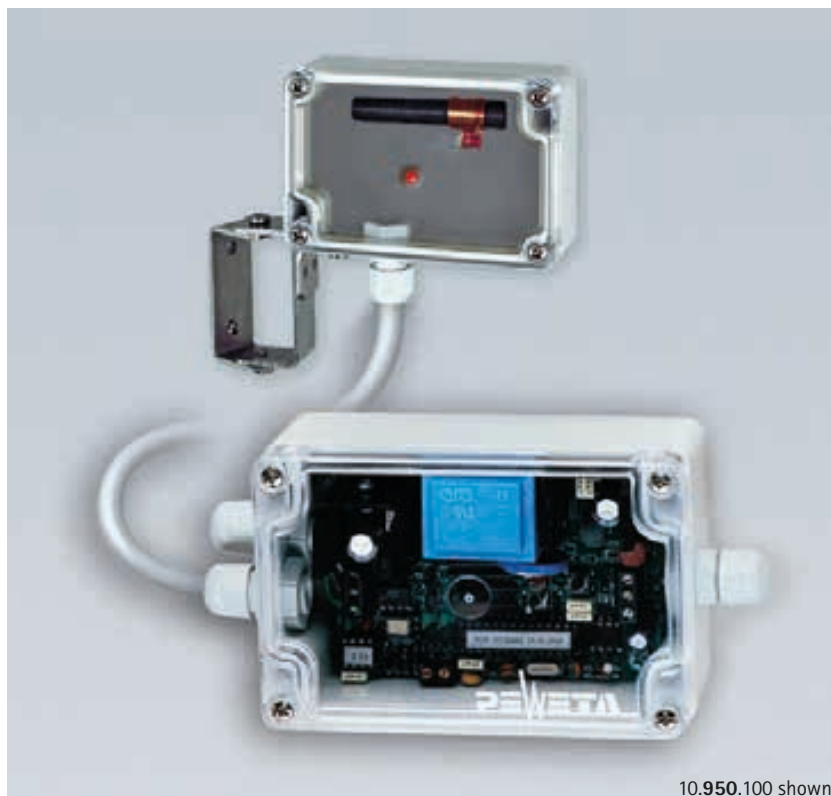

Slave Clock Control Unit
minute pulse 24 V output

This slave clock control unit, governed by DCF77, is capable of controlling up to four indoor/outdoor slave clock movements (at 6 mA/24 V each). Specifically suited to operate in- or outdoor clocks (e.g. with advertising) and all other single, double, or 4-faced slave clocks.

By means of a DCF77 aerial the control unit receives the exact time including the trigger signal for the automatic change-over between summer and winter time. In case of impaired reception due to local conditions pulse transmission to the slave clocks connected will be kept up. After a power outage the slave clocks connected will automatically be adjusted to match the correct time. After installation the control unit operates completely autonomous and maintenance-free.

- Alternating polarity minute pulse, 24 V
- Total output power cir. 30 mA/24 V
- Maximum wire length between slave clock movement(s) and control unit cir. 15 m
- Output is tolerant of circuit shorting and overload
- Electronic buffer memory and update circuitry
- Fully automatic read-in of current time upon installation or after power outage, automatic change-over between summer and winter time
- Operating voltage 230 V AC/50 ... 60 Hz, power consumption cir. 2 VA
- Weatherproof (IP 65/EN 60 529) plastic case for wall mounting indoors/outdoors or mounting on a 35 mm top hat bar. Dimensions (W x H x D) cir. 120 x 80 x 55 mm
- External DCF77 receiving aerial (IP 68/EN 60 529) with stainless steel mounting bracket included. Connecting wire (LIYCY 4 x 0,25 mm²), 5 m included in delivery shipment, may be extended to a maximum length of 50 m.

NTP Time Server
Network time distribution

The PEWETA NTP Time Server supplies the current time and date signal, received from the German DCF77 time protocol radio transmitter or from GPS satellite, to an IT network.

This enables all "clients" within the network, like for instance PCs, servers, smart phones, telephone systems, printers, and even clocks, to synchronize with this time base. A temperature controlled crystal oscillator (TXCO) ensures accurate timekeeping even in cases of a missing DCF77 or GPS radio signal. Maximum deviation during autonomous operation is +/- 16 seconds per year (standard version). Optionally, the NTP Time Server can be equipped with a crystal oven (OCXO), which reduces the maximum deviation during autonomous operation down to +/- 1.6 (!) seconds per year.

For security of operation, two time servers can be used to safeguard availability on the network (system redundancy). A web-based user interface provides for simple configuration of status messages, network settings, and safety adjustments. The support for a multitude of interfaces and formats offers maximum compatibility to common networks. The server, operating under a LINUX-based operating system, ensures maintenance-free long-term usage and can be updated if necessary. On the NTP Time Server PRO version, various common ASCII time codes can be selected for output through one of the 2 serial RS232 interfaces. Individual codes can be supplied on request.

If at least three NTP Time Servers are clustered (system redundancy) they act with a shared IP address on the network. If one of the NTP Time Servers provides a deviating time signal, this device will be deactivated and its function will be taken over by the other NTP Time Servers. Clustering functionality is included in each PEWETA NTP Time Server version as standard.

Transmission Pattern of "Legal" Time
by the DCF77 low frequency radio transmitter

Transmission pattern of "legal" time

Duration of summer time

The DCF77 time signal transmitted from Mainflingen near Frankfurt/Main is derived from nuclear decay timing devices operated and controlled by the Federal Establishment for Physics and Technology (PTB) at Braunschweig. Range of this radio signal is approximately 1,500 km. Beyond this range we recommend radio control by GPS (Global Positioning System).

Duration of Summer Time*
Beginning and End of summer time have been set for the following days – 01,00 world time:

	Start	End
2025	Sunday, March 30th	Sunday, October 26th
2026	Sunday, March 29th	Sunday, October 25th
2027	Sunday, March 28th	Sunday, October 31st

*for European Union countries

All information is without legal obligation · Subject to change without notice · Status as of January 1st, 2025.

The General Terms and Conditions of Sale
of PEWETA KG (GmbH+Co.), Hamburg

1. General

The following terms and conditions alone shall apply to all contracts for sale and contracts for work and materials concluded with us and to any offers made by us, if and to the extent that nothing to the contrary is agreed in writing. The general terms and conditions of the purchaser shall not apply, even if we do not expressly repudiate them.

2. Offers, product documentation and the acceptance of orders

Until such time as an order is confirmed in writing, any offers made by us shall remain non-binding on us. Only our written confirmation of the order shall stipulate the scope of the delivery or performance to be given. Any technical specifications and descriptions which are set out in offers or brochures or any other printed material and on the internet shall only be binding if they are designated as binding in the confirmation of the order.

We reserve the right to make any changes as the result of technical progress, as well as any optical changes, to the extent that such changes are not detrimental to the client and are reasonable.

Orders submitted by the purchaser shall only be deemed to have been accepted when they have been confirmed by us in writing, either by fax or by e-mail, by dispatch of the goods or by the issue of an invoice. Cancellations of and changes to orders shall only be valid after our written confirmation thereof has been received.

3. Prices and conditions of payment

To the extent that nothing is expressly agreed to the contrary, our ex works prices (EXW Incoterms 2020) from Hamburg shall apply, plus a fixed sum in respect of packaging and transport and value-added tax at the statutory rate. No shipping insurance cover is included in our prices.

The purchaser may only set off any counter-claims which it may have if such counter-claims are not disputed or if they have the force of *res judicata*. The same shall apply to the enforcement of any rights of retention.

4. Delivery periods and delivery conditions

Delivery periods shall be deemed to have been complied with if, by the date of the expiry of such delivery periods, the subject-matter of the delivery has been readied for dispatch ex works, or, should the dispatch of the goods be delayed for reasons which are attributable to the purchaser, if the goods' readiness for dispatch has been notified within the agreed delivery period.

Partial deliveries in accordance with an agreed delivery schedule and agreed volumes shall be permitted and may be invoiced separately.

Sale and delivery of the goods shall be subject to correct and punctual supply to ourselves.

5. Transfer of risk, damage during shipping and theft

Risk shall be transferred to the purchaser when the goods leave our warehouse or, if the purchaser has to pick up the goods himself and the due date has passed, whenever the goods' readiness for dispatch has been notified to the purchaser. The goods shall therefore in all circumstances be shipped at the risk of the purchaser. We shall not be liable for theft or for any damage which occurs during shipment.

6. The return of goods

Any return of goods which is not based on our statutory obligations shall be subject to our prior written consent and shall be in accordance with the following provisions: custom-made goods and goods which are not stocked by us as a matter of course may not be returned. Goods shall be taken back at their net invoice price excluding any ancillary costs (e.g. packaging or transport costs) minus a fee of 25% in respect of the inspection and processing of the goods which are taken back and any other costs associated with such return, subject to the condition that the goods are sent back to us shipping paid, in their original packaging and with their original value. The approval of any returned goods shall be a matter for us alone. Should any costs be incurred in connection with returning the goods to their original condition, the purchaser shall bear such costs.

7. Liability for defects

Any claims pursuant to visible defects shall only be permissible if they are notified to us in writing immediately and at the latest within a period of eight calendar days from the date on which the goods are received. Hidden defects must also be notified to us immediately and at the latest within a period of eight calendar days from the date of their discovery. In the event of a substantiated claim which is notified within the periods set out above, we may at our discretion and within a reasonable period repair the goods or deliver replacements free of charge. Apart from that the provisions of the law shall apply.

Claims in respect of defects in accordance with section 437 of the *Bürgerliches Gesetzbuch* [German Civil Code] shall be time-barred twelve months from the date of delivery. This provision shall not apply to claims for damages and in respect of the reimbursement of any expenses incurred. The statutory periods shall apply to such claims.

8. General liability

Claims for compensation of any nature which may be brought against us and our legal representatives and agents shall be excluded, in the absence of any intent or gross negligence or the breach of a material contractual obligation on our part.

In accordance with this provision, the breach of a material contractual obligation shall mean any obligation of which the observance makes the proper execution of the contract possible and on the observance of which the purchaser therefore may duly rely.

Liability for the gross negligence of our employees, to the extent that such employees are not management personnel, shall however be limited to compensation for typically foreseeable damage. This limitation of liability shall not apply to any breach of a material contractual obligation within the meaning of the previous paragraph.

The limitations and exclusions of liability set out above shall not apply to any liability pursuant to the *Produkthaftungsgesetz* [German Law on Product Liability] or to any domestic laws which implement the Product Liability Regulation or in the event of the death of, or physical injury to a person, or prejudice done to the health of a person.

9. Retention of title

We shall retain title to the delivered goods until payment is made to us in full of all outstanding amounts due pursuant to the commercial relationship.

It shall only be permissible to sell on the delivered goods in the normal course of business subject to a retention of title, and only if the right to receive payment pursuant to the on-sale is assigned to us. The purchaser shall be prohibited from pledging the goods or transferring them by way of security and shall also be prohibited from concluding any agreement in relation to an assignment. The purchaser must inform us immediately of any pledge or any other impairment of our rights by third parties. The purchaser hereby assigns to us in advance any rights which may accrue to it pursuant to the on-sale of our goods. We hereby accept such assignment. Should the value of the security given to us exceed the sums due to us by more than 10%, we undertake at our discretion and at the request of the purchaser to release the corresponding security.

10. Place of performance, place of jurisdiction and applicable law

The exclusive place of performance shall be Hamburg. The exclusive place of jurisdiction for all disputes with commercial parties or with persons who are not generally subject to the jurisdiction of a domestic German Court shall be Hamburg. At our discretion we may instigate proceedings against the purchaser before the Court which has jurisdiction over the location of its registered office or before the Arbitral Tribunal of the German Institution for Arbitration (DIS). In the event of arbitration proceedings, the location of the arbitration shall be Hamburg.

German law shall apply. The United Nations Convention on Contracts for the International Sale of Goods shall not apply. The Incoterms 2020 shall apply, as amended.

The general terms and conditions of sale

Prices, freight and handling

Prices	Packing, Freight, Insurance
